"The Proper Tonic When Coughs Are Chronic."

FOLEY'S HONEY AND TAR
COMPOUND

"HAWKING" and spitting, with or without a hacking cough, notonly disturbs and disgusts bystanders, but weakens and wears down the system of the sufferer so that the way is made easy for more serious sickness.

It isn't "smart" to neglect a cold. On the contrary, it is downright foolish. It may sound quite bold and strong to say, "I don't believe in medicine or doctors," or "I never bother with a cold"—but just watch carefully the result of such practices. You hear the boasting and bragging man, "The cold went away," but you don't always hear the regret and sorrow when the cold stays and does its worst.

Let common sense, intelligence and experience be your guide. Act promptly to check any cold, no matter how slight. Stop any cough as soon as you can. "It's better to be safe than sorry," is an old and true saying.

Foley's Honey and Tar Compound loosens the phlegm and mucus, clears the passages, eases the inflamed and irritated membranes with a healing and soothing medicine, eases the hoarseness, stops tickling in the throat and enables you to enjoy refreshing, restful sleep. It contains no opiates and is pleasant to take. Good for children as well as grown-ups. It has relieved thousands of cases of spasmodic croup and whooping cough. In 25c, 50c and $1.00 sizes.

Council Proceedings

Council Chambers,
Farmington, June 3, 1918.

Regular session of the Common Council of the Village of Farmington, called to order by President George Francis.

Trustees present: Walters, Hogle, Lamb, Ely, Nichols and Webster; also the clerk.

Minutes of the meeting of May 6th read and approved.

President Francis reported that Assistant Supt. of Tracks Ross, of the D. U. R. was here and told him the D. U. R could make no promises on account of their inability to procure steel, but that if notified of the hearing on paving assessment they would be here ready to do their part. Mr. Ross was of the opinion that at the time of paving their track whould be turned opposite the Ely garage and cross their property to Division street, doing away with the present tracks from the garage to the freight house.

W. E. Heeney appeared in behalf of the band boys, merchants and citizens, asking for an appropriation of $125 toward building a band stand on the town hall square, they having secured enough through subscription to complete stand and finance the band for the season, who in return agree to give Saturday night concerts each week.

Moved by Trustee Nichols and supported by Trustee Ely, that the village contribute $125 for the above purpose. Carried.

Moved by Trustee Ely and supported by Trustee Nichols that tax rate be the same as last year, $11.50 per thousand. Carried.

The following bills were read and ordered paid:

Charles Spaller, chimney at Water Works	$16.50
Perry Wixom, team work	7.00
Henry West, wire work	1.00
Frank Edwards, wire work	1.00
Charles Spaller; building sidewalk	17.00
Jesse Gates, gravel for sidewalks	9.00
William Ringle, work at cemetery	10.50
William Voss, work on sewer	1.00
Bert Whitemore, team work	28.67
F. L. Cook & Co., supplies	19.58
Farmington Lumber & Coal Co. cement and lumber	28.46
Thomas Ingersoll, work on water	6.00

President Francis appointed Trustees Ely and Nichols to act as Board of Review.

No further business appearing council adjourned.

W. E. LORD,
Village Clerk.

1898—1908—1918

Three Signal Years in American History

1898—War with Spain! Humanity and liberty brought by America to oppressed Cuba and Philippines, the United States taking its firm place as a world power.

1908—Peace and prosperity! America's battleship fleet, "Ready for a fight or a frolic," as Admiral "Bob" Evans remarked, gone on its 45,000-mile, around-the-world cruise, pointing out to all nations the fact that we had become a power to be reckoned with, and a cruise which European experts said could not be completed. But it was!

1918—America in the Great War, throwing its every energy into the combat to make the world a decent place to live in.

In *1898*, TRUMAN H. NEWBERRY, one of the organizers of the Michigan Naval Reserves, served through the Spanish war as a lieutenant on the "Yosemite," which was manned by Michigan's Reserves.

In *1908*, TRUMAN H. NEWBERRY prepared the battleship fleet for its famous cruise and from assistant secretary became Secretary of the Navy in the Roosevelt cabinet.

Truman H. Newberry

In *1918*, TRUMAN H. NEWBERRY, again a volunteer, a Commander in the Third Naval District, including New York City and Brooklyn navy yard, the most important naval division in the country.

A man of national distinction, of unflagging devotion to his country, of able service in peace and war, of high character, genial, approachable and sympathetic, TRUMAN H. NEWBERRY is a man on whom not only all Republicans but all the people of Michigan can unite.

In this crisis, the office demands the ablest and most experienced man available to help conduct the nation's affairs, TRUMAN H. NEWBERRY is such a man. Every Michigan voter can support his nomination and election with confidence in his record, his ability and his 100 per cent Americanism.

Assembly on June 22nd at Booth Farm

A. L. Nique, county vice-director of the U. S. Boys' Working Reserve, announces that the committee in charge for Oakland county has arranged for a round-up and inspirational meeting on June 22nd, at the George Booth farm, for all boys who have enrolled in the Boys' Working Reserve, including all boys between the ages of 16 and 20 who are now working on farms, and also all farmers employing help from the Boys' Reserve. There are nearly 200 boys in Oakland county who have enrolled, and who will be available for farm labor after June 22. There are also nearly 75 boys now employed on Oakland county farms.

Oakland County's Farm Bureau

Many people in this county are wondering what the Farm Bureau stands for, and what it must accomplish. It is our intention to briefly discuss in a series of articles some of the more important lines of work that the organization is doing in all parts of the country.

In the first place it must be remembered that the Farm Bureau is an organization now reaching into nearly every county in America for a specific purpose.

The bureau is organized for the benefit of Oakland county people, an appropriation being made by the supervisors for its establishment.

Prepare For Fall Vegetable Crop

Gardens can be made to produce until late in autumn season, if gardeners will make plantings during late June and July. It will be possible for them to keep the home tables supplied with vegetables until far into the autumn, according to word from the department of horticulture of M. A. C.

Many gardens which start very favorably with the first early spring crops gradually become patches of weeds as the saeson advances. There are many vegetables, however, that may be planted in late summer, especially for fall use. These can be used to replace such early crops as radishes, lettuce, early peas and other crops that have been removed.

Plantings of string beans and golden bantam sweet corn may be made as late as July 1; Chinese cabbage July 1 to 15; potatoes late June, beets and rutabages, June 15 to July 1; radishes (summer and winter), turnips, endive, spinach and leaf lettuce, July 15 to August 1. Plantings of late celery, cabbages and cauliflower should be set during the first two weeks of July.
