SAAB VS. SNOW.

Front-wheel drive makes it no contest.
Saab conquers snow. And ice. Thanks to its front wheel drive. And big 15" tires that provide more traction. Rack and pinion steering, and 4-wheel power assisted disc brakes, finish off what's left of the problem of driving in snow.
All these have been standard performance features with Saab for years. So for years, where it snows a lot, a lot of people drive Saab. Example: Vail and Aspen. In these Rocky Mountain ski resorts, the police drive Saab.
Choose Saab. It's the car for all seasons with a specialty — Winter.
SAAB IS THE COMMAND PERFORMANCE CAR.
