YOUR OPERATOR, NOT LONG DISTANCE, WILL HANDLE TOLL CALLS AND ALL INTERZONE CALLS TO NEAR-BY POINTS

Station calls to points in the following list should be made by giving the desired number to the Operator who first answers. When the Operator answers give her the name of the place and the telephone number desired. Then wait with the receiver to your ear for an answer from the called telephone or a report from the Operator, as you would on a local call.

Long Distance Calls

A Station call is one where you are connected with the called telephone or private switchboard. When calling, if you don't know the number, say, for example,

"New York, Mr. John Jones' residence, 734 Park Ave."

If you do know the number, say, for example,

"New York, Exchange 3-9911."

Charging begins as soon as you receive an answer from the called telephone or private switchboard.

A Person call is one where you are connected with a specified person, or with a particular telephone or department reached through a private switchboard. When calling if you don't know the number, say, for example,

"New York, Mr. John Jones, 734 Park Ave."

If you do know the number, say, for example,

"New York, Exchange 3-9911, Mr. John Jones."

Charging begins when you start to talk with the particular person, extension, or department you want.

Rates may be obtained from the Long Distance operator. Between the hours of 6:00 P.M. and 4:30 A.M. and all day Sundays, reduced rates apply on Station and Person calls for which the Station day rate is more than thirty-five cents.

TO PLACE A LONG DISTANCE CALL

Call Long Distance, and give her:

1. The name of the place you wish to reach.
2. The telephone number you wish to reach at that place or, if the number is not known, the name and address under which the number might be listed. Giving the number will speed the completion of your call.
3. If a Person call, the name of the person or extension number of the Private Branch Exchange to which you wish to talk.
4. If you are placing a Station call, do not specify that a person or extension of a Private Branch Exchange is desired. To do so will make you call Person service and prevent application of the lower rate.
5. When requested by the Operator, give your telephone number. Hold the line until the called telephone answers or the Operator gives a report.

COLLECT CALLS

A Collect Call is one on which arrangements are made to bill the charges for the call to the telephone number called.

MESSENGER CALLS

A Messenger Call is one on which the Telephone Company sends a messenger to summon the called party to a telephone. The messenger fee is added to the charge for the call.

General Information

Answer calls promptly so that the calling party will not be kept waiting. When answering calls, announce by name or telephone number.

Party line and rural line customers should answer only their own ring signals. If there is any confusion about the ring signals, the fact should be reported promptly to the Chief Operator.
