ELECTRONIC ENGINEERS

The R & D section of IPE Cheston is seeking creative engineers interested in the design and development of advanced solid state power conversion equipment. We are offering highly visible positions in a dynamic organization that is a world leader in the design and manufacture of solid state inverters or induction heating.
We need engineers with hands-on experience in the application of power semiconductors, design of power conversion circuits, or dedicated analog and digital feedback control circuits. You will be working in small project teams with other engineers having many years of experience in the design of high power solid state inverters. With IPE Cheston you will have the satisfaction of seeing your innovative ideas and designs put to use in a matter of weeks, not years.
You should have from 3 to 10 years experience and have demonstrated a high level of achievement with minimum supervision. BSEE required.
We are an agressive, rapidly growing company located in the Northern suburbs of Metropolitan Detroit. For immediate and confidential consideration, please submit your resume with salary history to:

IPE CHESTON
