INFORMATION ABOUT YOUR TELEPHONE SERVICE

PARTY-LINE COURTESY PAYS

If you are on a party line, remember that consideration among those on the line will be appreciated by all.

These suggestions will help you obtain the best service:

Listen for a moment to make sure the line is clear, so you won't interrupt a neighbor's call. Replace the receiver quietly if the line is in use. Keep calls to a reasonable length, and avoid consecutive calls when it is evident that others are waiting.

BE CERTAIN TO HANG UP CAREFULLY

"Banging" the telephone when you hang up may give the person at the other end an unpleasant bang in the ear. It may also cause the telephone to go out of order.

GIVE THE CALLED PERSON TIME TO ANSWER

The person you are calling may be unable to reach the telephone quickly. If you allow plenty of time for answering, it may save making another call. Wait at least ten rings—one minute—before you decide no one is there.

LONG DISTANCE SERVICE

Station Calls

A Station Call is one on which you are connected with the distant telephone only.

To place a Station call tell the operator the name of the city, the number of the distant telephone (or the name and address under which it is listed if you do not know the number).

For example: "I want to talk to Blanktown, Iowa, Main 2544." Or "I want to talk to Blanktown, Iowa, with anyone at the residence of Mr. John Doe, 2564 Elm Street."

Station calls cost less and are better if you are willing to talk to anyone at the distant telephone, or if you are reasonably sure that the one you want to talk to will be available. Charges on Station calls begin as soon as the distant telephone is answered.

Person Calls

A Person call is one on which you specify that you want to talk to a certain individual (or department or extension telephone reached through a private branch switchboard).

For example, calls to "Room 435 Excelsior Hotel", or the "Purchasing Department, Jones and Company" are Person calls.

Charges on Person calls do not begin until the person you named, or a substitute acceptable to you, is on the telephone.

While Person calls cost more than Station calls, they are generally better if you must talk to a certain person and are not sure that he will be available when you call.

Collect Calls

If you want the charges for an out-of-town call billed to the distant telephone, tell the operator when you place the call that it is to be a "Collect" call. She can then determine whether someone at the distant telephone will accept the charges.

There is no extra charge for Collect calls, except on Station calls with an initial rate of 20 cents or less.

Night and Sunday Rates

Reduced rates apply on calls to points in the United States and Canada from 6:00 P.M. until 4:30 A.M. and all day Sunday when the initial 3-minute rate is $.40 or more on a Station call or $.55 or more on a Person call.

Overseas Service

Nearly any telephone in the world is within reach of your telephone. An overseas call goes by wire to a Bell System radio-telephone station on the coast, across the ocean by radio, then by wire circuit again to the person you are calling. The operator will tell you what overseas points can be reached.

DIRECTORY ACCURACY

Every effort is made to compile and print this directory as accurately as possible. However, despite care and attention, errors sometimes occur.

Please check your listings when you receive a new directory. If you should be listed incorrectly, notify the Business Office at once so that we may change our records and do whatever we can to protect your service in the meantime.

The Company assumes no liability for damages arising from errors, or omissions, in free listings. Its liability, in the case of paid listings, does not exceed the charge for such listings during the life of this directory.

A Friendly Suggestion...

If you have found the Classified Telephone Directory helpful as a guide to buying, tell your friends about it. Perhaps they will find the convenient listing of tradespeople useful, too, and they will appreciate your suggestion.

Many new residents, especially, have come to rely on the Yellow Pages of the Telephone Directory to help them locate the dealer who can serve them best, or to find who handles the brands of goods they want.

The Classified tells who's who in local business. Its listings are made up of alert merchants and service concerns that stand ready to serve you and your friends.
A HINT to the WISE...

To locate where to buy the particular product or service you want, find the classification that describes it. If you can’t find such a classification, look for the classification under a different descriptive name.

Then refer to the listings or ads which appear under the heading you’ve selected. From these you will be able to choose the firm best suited to meet your particular requirements.
Follow these simple suggestions:

1
Be sure you have the right number. When in doubt, look it up in the telephone directory.

2
Keep the directory or your personal number list near the telephone.

3
If your telephone is dial operated, wait for the dial tone before you dial. Otherwise, you may get a wrong number or no number at all.
**Helpful Hints for TELEPHONE USERS**

**ANSWER PROMPTLY**
You are less apt to miss important calls if you answer your telephone promptly.

**SPEAK IN A NORMAL VOICE**
You can be heard most distinctly if you hold the mouthpiece close to the lips, and speak in a normal tone of voice.

**KEEP PAD AND PENCIL HANDY**
It often is desirable to jot down notes when telephoning. Having a pad and pencil handy makes that possible and saves time on long-distance calls.

**WAIT BEFORE "HANGING UP"**
The person called may be unable to reach the telephone at once. Giving him plenty of time to answer may save making another call.

**HANG UP CAREFULLY**
By replacing the telephone receiver gently when through talking, you avoid giving the other person a "hang" in the ear.

**CONSULT DIRECTORY**
Referring to the telephone directory helps avoid "wrong numbers" and saves extra calls.
CLASSIFIED TELEPHONE DIRECTORY

Tells Where To Buy It and Who Will Fix It!

Designed as a convenient guide to tell where to buy specific commodities or services, the lists on these Yellow Pages are arranged alphabetically according to their business or professional classifications. To assist you in finding the goods or services you desire, it is suggested you select the headings most nearly representing the article or service you wish to telephone about. In some instances, you may find two or more headings are applicable.

After locating the heading most closely related to the firm you're seeking, refer to the advertisements, or listings associated with the heading, and choose the company, you want to call.

List Your Products Under Suitable Headings

If you are a business man, you will find that you will be giving buyers better service if you list your goods or services under all headings descriptive of the products you sell or services you render. For details about advertising, or additional listings in these Yellow Pages, ask the Telephone Directory Advertising Company, 321 West Lafayette, Detroit 26, Michigan, telephone number, Detroit, Cadillac 5252.
