dtSearch PDF Search Highlighter - Options

Which web sites should be allowed to highlight hits on PDF files?

○ Only allow programs on my computer to highlight hits in PDF files.

○ Allow web sites to highlight hits, but only on PDF files from the same web site.

● Allow web sites to highlight hits on PDF files from the same domain (recommended).

Also allow these trusted web sites to highlight hits on PDF files on any web site:

☐ Verify that highlighting requests are only sent to compatible servers (recommended)

Status: PDF hit highlighting is enabled.

PDF viewer: Adobe Reader 9.1

Plug-in version: dtSearch PDF Search Highlighter 0.94.1010

[OK] [Cancel] [Help] [Diagnostics...] [Check for Updates...]

12. Click "OK" the plug-in is installed

Keyboard shortcuts

When a PDF file opens after a search, press Ctrl+Shift+Spacebar to go to the next hit and Ctrl+Shift+Backspace to go to the previous hit.

Toolbar buttons

To make the Next Hit and Previous Hit buttons visible in Adobe Reader:

1   If the Adobe Reader toolbar is not visible, press F8 to make it visible. (To make the toolbar visible by default, open Adobe Reader and click Edit > Preferences > Internet and un-check the option to "Display in Read Mode by default".)
2   Click the "Tools" button in the Adobe Reader toolbar to open the Tools panel
3   Click "Plug-in File" to show the Next Hit and Previous Hit buttons.

Tools   Comment   Share
Note: Adobe Reader no longer allows plug-ins to add buttons to the main toolbar, so the plug-in can only add buttons to this Tools panel in Adobe Reader. Also, at this time, due to a bug in Adobe Reader X, only the top half of the plug-in buttons will appear if you exit and re-enter Adobe Reader without closing the "Plug-in File" section of the Tools panel. dtSearch Corp. has reported this bug to Adobe.
