YOUR SERVICE REPRESENTATIVE

In the Business Office you will find a Service Representative ready to help you with all your telephone business transactions. She will arrange for new service installations, for any changes in your service, and will answer any questions you may have about your service or bill.

To Transact Any Business with the Company

BY TELEPHONE

If you wish to telephone about your bill or about your service, call the Business Office.

IN PERSON

You may transact business in person at the Farmington office, located at 23616 Farmington Road any time between 8:00 A.M. and 5:00 P.M. Monday through Friday and until 12:00 Noon on Saturday. The office is closed on Sunday and on generally observed holidays.

YOUR TELEPHONE BILL

Telephone bills include charges for local service for one month in advance of the date of your bill and for out-of-town calls made during the monthly period preceding the date of your bill. Each customer is held responsible for all long distance messages originating from his telephone.

Bills may be paid at the Farmington Office. If paying by mail, please enclose the bill stub with your check and mail to the Michigan Bell Telephone Company, 23616 Farmington Road, Farmington. If the stub has been mislaid, please write your telephone number on the check.

MISCELLANEOUS INFORMATION

Service Connection Charges apply to the installation of certain telephone services. Information concerning such charges, as well as services and equipment not listed herein, will be furnished by the Business Office on request.

All rates quoted above are subject to a Federal Tax.

The above rates and charges were in effect at the time of issuance of this directory. They are subject to change by order of the Michigan Public Service Commission.

DETROIT DISTRICT EXCHANGE SERVICE

The FARMINGTON EXCHANGE is a "zone" of the DETROIT DISTRICT EXCHANGE. (See Map.) Calls between FARMINGTON and the other zones shown on the map are interzone calls. Interzone calls are charged for on a "Message Unit" basis, the message unit being a Method of Measurement. Factors such as length of conversation and the distance between the two points determine the Number of Message units to be charged on such a call. The number of message units applying on calls to the various zones is shown below. Each message unit represents a charge of 5c, except for "extended area, service" subscribers (see page 2).

MOBILE SERVICE

Mobile Telephone Service provides a means of transmitting calls to or from moving vehicles, such as automobiles, trucks or boats. Each mobile telephone has its own number. Conversations to and from vehicles equipped with this service travel part way by regular telephone wire and part way by radio channel.

All mobile telephone calls are handled by the Mobile Service Operator. To place a call to a mobile telephone, call Long Distance and ask for the Mobile Service Operator.

If you wish further information about mobile telephones, call Detroit, Woodward 3-9900, Extension 3156.

LONG DISTANCE SERVICE

STATION CALLS

A Station call is one on which you tell the Operator that you will speak to anyone at the distant telephone.

To place a Station call, tell the Operator the name of the city and the number of the distant telephone. If the telephone number is not known, give the name and address under which it is listed. For example, "I want to talk to Blanktown, Iowa, Main 2544." Or, "I want to talk to Blanktown, Iowa, the residence of Mr. John Doe, 2664 Elm Street."

Station calls cost less and are better if you are willing to talk to anyone at the distant telephone, or if you are reasonably sure that the one you want to talk to will be available. Charges on Station calls begin as soon as the distant telephone is answered.

PERSON CALLS

A Person call is one on which you specify that you want to talk to:

- 1—a certain individual, such as "Mr. John Doe," or
- 2—a certain department, such as "Purchasing Department, Jones and Company," or
- 3—an extension telephone reached through a private switchboard, such as "Room 435, Excelsior Hotel."

Charges on Person calls do not begin until the person you named, or a substitute acceptable to you, is on the telephone.

While Person calls cost more than Station calls, they are generally better if you must talk to a certain person and are not sure that he will be available when you call.

COLLECT CALLS

If you want the charges billed to the distant telephone, tell the operator when you place the call that it is to be a "Collect" call. She can then determine whether someone at the distant telephone will accept the charges.

There is no extra charge for Collect calls, except on Station calls with an initial rate of 20 cents or less.

NIGHT AND SUNDAY RATES

Reduced rates apply to points in the United States and Canada from 6:00 P.M. until 4:30 A.M. and all day Sunday when the call is to:

1. A Michigan Point, and the initial 3-minute rate is 45 cents or more on a Station call or 65 cents or more on a Person call, or
2. A point outside of Michigan, and the rate is 40 cents or more on a Station call or 55 cents or more on a Person call.

In determining whether the day or night rate is to apply, the time prevailing at the place where the call originates is used.

OVERSEAS SERVICE

Approximately 75 countries can now be reached by telephone. For ex-

LONG DISTANCE SERVICE

(continued)

ample, you may call Amsterdam, Holland; London, England; Brussels, Belgium; Sidney or Brisbane in Australia, or Shanghai, China, and the cost will be \$12 for a three-minute, number-to-number, day-time conversation on week days. The Sunday rate to these cities is \$9 for a similar kind of call.

An overseas call goes by wire to a radiotelephone station on the coast, across the ocean by radio, then by wire again to the person you are calling.

Just call Long Distance. She will be glad to assist you in calling overseas, or other foreign points.

WHEN AN EMERGENCY REQUEST INTERRUPTS YOUR CONVERSATION PLEASE HANG UP QUICKLY

If your party-line neighbor comes in on the line and says, for example, "My house is on fire", please give up the line without delay. Remember, it may mean the saving of both life and property.

DIRECTORY ACCURACY

Every effort is made to compile and print this directory as accurately as possible; however, despite care and attention, errors sometimes occur.

Please check your listings when you receive a new directory. If your listing is incorrect, notify the Business Office at once so that we may

change our records and do whatever we can to protect your service in the meantime.

The Company assumes no liability for damages arising from errors or omissions in free listings. Its liability, in the case of paid listings, does not exceed the charge for such listings during the life of this directory.

A Matter Of Sharing

Party line service is most satisfactory for all concerned when there is fair sharing of the line and thoughtful consideration of all users.

This includes allowing time between calls for others to use the line . . . replacing the receiver carefully when the line is in use . . . and answering calls promptly.

1. **STATION CALL**—When you ask the operator to connect you with a distant *telephone* only (not a specified person or private switchboard extension) it is a Station call, and costs less than a Person call.
2. **PERSON CALL**—When you ask the operator to connect you with a specified person or private switchboard extension, it is a Person call, and costs more than a Station call.
3. **DAY RATES** for both Station and Person long distance calls are effective from 4:30 a.m. to 6 p.m. week days. (*For Sunday, see below.*)
4. **REDUCED NIGHT RATES** on both Station and Person long distance calls are effective from 6 p.m. to 4:30 a.m.
5. **REDUCED SUNDAY RATES** on both Station and Person long distance calls are effective from 6 p.m. Saturday to 4:30 a.m. Monday.

Helpful Hints for TELEPHONE USERS .

ANSWER PROMPTLY

Many telephone calls are important! You are less apt to miss calls if you answer your telephone promptly.

SPEAK IN NORMAL VOICE

You can be heard most distinctly if you hold the mouthpiece close to the lips, and speak in a normal tone of voice.

KEEP PAD, PENCIL HANDY

To jot down notes when telephoning, keep a pad and pencil handy. They help save time on your long distance calls, too.

WAIT BEFORE HANGING UP

The person called may be unable to reach the telephone at once. Giving him plenty of time to answer may save making another call.

HANG UP CAREFULLY

By replacing the telephone receiver gently when through talking, you avoid giving the other person a "bang" in the ear.

CONSULT DIRECTORY

Referring to the telephone directory for correct numbers helps avoid "wrong numbers" and often saves extra calls.

CLASSIFIED TELEPHONE DIRECTORY

Tells Where To Buy It and Who Will Fix It!

Designed as a convenient guide to tell where to buy specific commodities or services, the lists on these Yellow Pages are arranged alphabetically according to their business or professional classifications. To assist you in finding the goods or services you desire, it is suggested you select the heading most nearly representing the article or service you need. In some instances, you may find two or more headings are applicable.

After selecting the heading most closely related to the item you're seeking, refer to the advertisements or listings associated with the heading, and choose the business place you want to call.

List Your Products Under Suitable Headings

You will find that you will be giving buyers better service if you list your goods or services under all headings descriptive of the products you sell or services you render. For details about advertising or additional listings in these Yellow Pages, ask the Telephone Directory Advertising Company, 321 W. Lafayette, Detroit 26, Michigan, telephone number, Detroit WOODWARD 1-5252.

Directory Accuracy

The Michigan Bell Telephone Company and the Telephone Directory Advertising Company do not assume any liability because of errors or omissions in compiling this Classified Directory. Errors will be corrected in the subsequent issue if reported in writing to the Telephone Directory Advertising Company.

How to Speed Your Long Distance Telephone Call

It will speed your connection if you give the operator the number of the telephone you are calling when you call points out of town.

If you do not know the number, give the long distance operator the name of the person under which it probably is listed.

SPEAK INTO THE TELEPHONE
with your lips close to the mouth-
piece, for clearest voice transmission.

*The odds are
all in your favor!*

When you're not quite sure about a telephone number and you wonder whether to call "Information", please remember: the odds are that the number you want is right here in the book.

In Michigan, 3 out of 5 calls to "Information" are for numbers listed in the telephone directory. There are so many of these unnecessary calls that answering them adds up to more than 1,000 wasted hours of operator and switchboard time every day.

You can help us save that time and give better service on the necessary calls if you'll cooperate in these two simple ways:

- 1. Please look in the directory before you call "Information."**
- 2. If the number isn't listed and you must call "Information," please write it down so you'll have it next time.**

THE RIGHT WAY

to call Long Distance!

For faster service and more satisfactory results generally, please give the long distance operator the information she needs . . . *in this order:*

1. The name of the city you are calling.
2. The telephone number in the distant city.
3. The name of the person you're calling, if it's a person-to-person call.
4. Your own telephone number, after the operator asks for it.
