

FARMINGTON CLASSIFIED TELEPHONE DIRECTORY

Tells Where To Buy It and Who Will Fix It!

Designed as a convenient guide to tell where to buy specific commodities or services, the lists on these Yellow Pages are arranged alphabetically according to their business or professional classifications. To assist you in finding the goods or services you desire, it is suggested you select the heading most nearly representing the article or service you need. In some instances, you may find two or more headings are applicable.

After selecting the heading most closely related to the item you're seeking, refer to the advertisements or listings associated with the heading, and choose the business place you want to call.

List Your Products Under Suitable Headings

You will find that you will be giving buyers better service if you list your goods or services under all headings descriptive of the products you sell or services you render. For details about advertising or additional listings in these Yellow Pages, ask the Telephone Directory Advertising Company, 321 W. Lafayette, Detroit 26, Michigan, telephone number, Detroit Woodward 1-5252.

Directory Accuracy

The Michigan Bell Telephone Company and the Telephone Directory Advertising Company do not assume any liability because of errors or omissions in compiling this Classified Directory. Errors will be corrected in the subsequent issue if reported in writing to the Telephone Directory Advertising Company.

*Just then the
 telephone rang!*

You never know what's happening at the other end of the line when you make a telephone call.

Best idea at all times is to give the person you are calling a chance to reach the telephone. Ten rings take only a minute.

**'WAIT BEFORE
 "HANGING UP"**

The person you're calling may be some distance from his telephone. Give him a chance to answer before you hang up your receiver.

"OFF-THE-HOOK"
may mean lost calls

When you forget to replace the telephone receiver, persons calling you get a "busy" signal. Thus you may miss important calls.

Many Advertisers

have found that results obtained through advertising in the Yellow Pages are greater than can be obtained through similar expenditures in many other forms of advertising.
