TOOLING TECHNICIAN
A small tool and die plant located in a Western suburb seeks an aggressive "hands on" person to assist the Manager in the research and development of manufacturing processes and techniques. Working closely with toolroom personnel, this position will provide manufacturing support through blueprint interpretation and mathematical calculation. Other functions include preparing material requisitions, processing machine load records, preparing tooling quotations, and production supervision as necessary.

The qualified candidate will be a "shop oriented" individual and possess a working knowledge of most toolroom machinery. An Associate Degree or some college Engineering is definitely preferred.

This position offers an interesting and challenging career opportunity with significant managerial training.
