WHEN YOU CONSIDER WHAT YOU GET IN A SAAB, ITS PRICE MAY BE THE MOST BEAUTIFUL THING ABOUT IT.

A new 1982 Saab is not inexpensive. But when you realize what you're getting, you may look at its price in a different light.

The new Saab, for example, has a vast 56 cubic feet of cargo space. It has the interior room of a mid-sized car, yet it remains a true compact. And it has front-wheel drive.

Not to mention power steering, power disc brakes, 5-speed manual transmission and fuel injection. And much more.

Now look at the price.

Beautiful, isn't it?
