An Open Letter
To *YOU*
The Concerned Public

Your VW Center
In the Greater Bloomfield / Pontiac Area

Nov. 21, 1974

This space could be used for a picture advertisement of a Volkswagen product. Instead I am writing this open letter to express clear facts of my automobile business.

I know you are probably considering buying a new car or how long to keep your present one. But, if you are like myself, you are concerned about inflation and today's economy.

As an automobile owner you should know certain facts. You should know that your present car is at a peak trade-in value, and that Autobahn Motors has new products at '74 prices. This means that NOW is the ideal time to trade your present car in on a new Volkswagen.

*"*There are only two premises that are tenable as to the future. We are going to have either chaos or recovery. The first assumption is foltish, because if chaos comes nothing will maintain value, neither bank deposits nor gold. Since this is an impossible contingency, it must therefore be predicated there will be recovery.*" With this recovery there will be inflation and prices will rise. Therefore, if your family is in need of an automobile I urge you to purchase one now at our lowest prices.*

We at Autobahn motors pledge our complete and total effort to satisfy your automobive needs whether it be the purchase of a new or used car, or the service of your present Volkswagen.

Sincerely,

Paul E. Carrick
President
Autobahn Motors Inc.

*Experts from a letter written by Dean Witter May 6, 1932, founder of Dean Witter Inc. Brokerage Firm. I quote Mr. Witter's thought because I believe it is as applicable today as when it was first written.
