YOU CAN USE A SNAPPER AS A "MULCHING" MOWER OR AS A SUPERIOR "BAGGING" MOWER.

That's an important option to have when grass gets too tall or lush for mulching. When you add an inexpensive Mulcherizer to your SNAPPER you convert it to a "mulching" mower. It then chews up cuttings so fine they become lawn food and you don't have to rake or bag. But, unlike one function "mulching" mowers, you can remove the Mulcherizer and use your SNAPPER as a superior "bagging" mower. Built in quality features on every SNAPPER mower includes full-length solid steel axles, large rear wheels and easy cutting height adjustment.

SNAPPER mowers are worth more because they do more and their price is competitive with other quality mowers.
