POWER. NOW.
The Saab Turbo. A breathtaking chance to feel the power of the future. Now. Behind that power is an engineering marvel. The remarkable Saab turbo-charger. It delivers the kind of energy formerly reserved for racing. But puts it at your command when you want it-in everyday driving situations. You'll thrust onto the highway and burst past traffic when you need to pass. To enhance that power the Saab Turbo also has the exquisite ability to control it. There's front wheel drive, rack and pinion steering and power assisted disc brakes on all four wheels. And that's just a few of Saab's Command Performance features. If, as we suspect, all this whets your appetite, test drive a Turbo at a Saab dealer. The power of the future is ready for delivery. Now.

For those shocked that a new VW, Toyota, Datsun or Honda can cost $5,000 to $7,000.
The
$5998 *Saab.
