THE SAAB AUTOMATIC.

A HIGH-PERFORMANCE CAR THAT SHIFTS FOR ITSELF.

If you want the excitement of a high-performance car but would rather keep both hands on the wheel, the Saab automatic is for you.

It's a 5-speed with select drive. So it's responsive enough for sport roads and high speed turns. And it's gear rack and pinion steering for sure-process handling and quicker response.

And for the ultimate in automatics, there's the Saab Turbo. It gives you the power of 8 cylinders and the economy of 4.

So come test drive a Saab automatic. Because with a Saab, driving an automatic doesn't have to be dull.

Not even on a test drive.

SAAB
The most intelligent car ever built.
