Again The Spring

Each year this season comes with its evidence of resurrection and new life to renew our hopes for the future.

It should give to each of us renewed confidence in our ability to carry on to the goal we have set.

So take heart and let saving is part of your programme as it should be, double your efforts in this direction.

This good bank is here to help you.

Start your CHICKS right by feeding them a properly balanced feed. We carry two good feeds for this purpose.

SUCRENE CHICK MASH with DRIED BUTTER MILK
and
BLATCHFORD'S MILK MASH.

Either of these feeds will grow a much healthier chick than if fed on grain or corn meal.

Farmington Roller Mills

THE AMERICAN LEGION

(Copy for this department furnished by the American Legion News Service.)

IS PROMOTED TO COMMANDER

Ardmore (Okla.) Man So Successful That His Worth Was Recognized by Home State.

H. B. Fell, commander of the Oklahoma department of the American Legion, is vice president of a large steel construction company in Ardmore, Okla. Born in Wilkesbarre, Pa., Mr. Fell was educated in the public schools and Harry Hillman academy of that city. He was graduated from Mercersburg academy and later from Princeton university with the degree of civil engineer.

Mr. Fell was construction engineer and officer in a number of public utility companies of Pennsylvania before entering the service. A graduate of the Second Officers' Training camp at Fort Niagara, N. Y., Mr. Fell rose from second lieutenant to major during his army career, which was spent in various southern training camps.

The record of A. C. Fell as commander of George R. Anderson Post No. 65 of the Legion at Ardmore was so successful that he was elected department commander at the last Oklahoma convention.

PLAN TO FIGHT PROPAGANDA

Will Urge Congress to Make English Language and American History Compulsory in Schools.

Henry J. Ryan, who succeeded Arthur Woods as national director of the American education commission of the American Legion, has announced a definite program of Americanism activities which the Legion intends to have will effectively combat anti-American propaganda at its sources.

The plan includes a sympathetic reception to the immigrant and a method of providing him with opportunities to school himself in American ideas; improvement of immigration and naturalization laws; measures to stop the circulation of Bolshevist and I. W. W. propaganda, and providing a greater chance for education in citizenship among the adult native born.

The Legion's campaign will start with the school, which is characterized by Mr. Ryan as the foundation of character building. "No greater problem challenges the American people than the school," said Mr. Ryan. "Sweeping changes must be made in our schools or revolution and the destruction of America will be but a matter of time. The school system of America, as constituted at present, is incapable of developing the type of intelligent citizenship which is the foundation of a democracy, and without which human liberty has no champion. The changes which the American Legion advocates are, first, that English shall be the controlling language in all schools, and, second, that the study of American history and civics shall be made compulsory to all school pupils. To accomplish these proposals the Legion will petition congress to formulate a resolution recommending to state legislatures the passage of statutes embodying these changes."

Novi

Mrs. C. C. Rix arrived home from Florida Saturday, April 9th., Mr. Rix is going to stay until some time in October. He is with his brother.

Mr. and Mrs. Frank Pratt of Commerce, were calling on friends here Tuesday of this week.

THE NEW EDISON-
The Phonograph With a Soul
Has Come To *Farmington and Vicinity*

The New Edison is not a talking machine. It is the only instrument ever invented that RE-CREATES the human voice and the music of human played instruments. By RE-CREATES we mean that there is not a shadow of difference between the renditions of the living artist and the New Edison's RE-CREATION of them. If there is any doubt in your mind on this point, permit us to dispel it by informing you that over fifty Edison artists (great singers and instrumentalists have submitted the New Edison to the conclusive test of a side by side comparison.

CANNOT BE DISTINGUISHED FROM LIVING VOICES.

These tests have been made before almost four million music lovers and the music critics of several hundred of America's leading newspapers, who were mystified by hearing the New Edison match living voices instrumental performances so truly that their ears failed to distinguished the living voice or instrument from the New Edison's RE-CREATION of them.
