mazda
For 1982, which Mazda is right for you?
GLC: Most significant new imported car.
Front-wheel drive • 1.5-litre engine • 4-wheel independent suspension • Aerodynamic design
46 est. hwy mpg 35 est. mpg
626: European road-car refinement at a fraction of the price.
5-speed transmission • AM/FM stereo radio • Velour bucket seats • Fold-down rear seatbacks
37 est. hwy mpg 27 est. mpg
RX-7: The incredible sports car value.
• "Rotary Rocket" performance • Full instrumentation • Luxurious sports car interior • 5-speed transmission
30 est. hwy mpg 21 est. mpg
Mazda's rotary engine licensed by NSU-WANKEL
1981 Car and Driver Reader's Choice Poll.
*Assume everyone the EPA estimates 38 the "estimated mpg" of other cars. You may get pickyer mileage, depending on how fast you drive, weather conditions, and trip length. Your actual highway mileage will probably be less than the estimated highway mileage.

INTRODUCING THE WORLD'S ONLY TURBO THAT GOES FASTER ON LESS GAS.
Until now, no turbo could deliver power and economy at the same time.
Because, to protect itself, it had to have its boost pressure limited at the factory.
Which, of course, limited its performance on the road.
The new Saab APC Turbo, on the other hand, automatically adjusts boost as you drive. The resulting increase in efficiency gives it what no other turbo has: better mileage and power, simultaneously.
Plus throttle response unmatched by any other turbo on the road, which a short test drive will immediately demonstrate.
So, while all turbos are touted as giving better mileage and power, only the Saab APC Turbo actually does both at once.
Which, when you think of it, is the only way you'd really want it.
SAAB
The most intelligent car ever built.
