We Need Bright Minds To Help
Make Bright Ideas Work!

Here at Eaton's Research Center, new concepts are developed and applied to an exciting variety of new products. Our diversification and growth now create challenging career opportunities for qualified technicians with background in these areas:

CIRCUIT DEVELOPMENT

Requires knowledge of analog and/or digital solid state circuit principles including component selection. Experience should include layout and buildup of prototype circuitry and familiarity with electronic test equipment.

MECHANICAL

Requires 2 years experience in areas related to assembly of prototype hardware, build-up of test rigs including instrumentation, conducting performance tests, and collecting and analyzing data. Experience with reciprocating, rotary and turbine engines helpful.

These positions carry salaries fully commensurate with actual responsibilities and experience plus a complete company paid benefits plan. Send your resume or letter of application including salary history and requirements.
