To the Honorable Board of Supervisors:
Your committee to whom was referred the proposition of building site for County Building and Court House, beg leave to report that they have had the same under consideration and have agreed upon the necessity of securing such a site at once.
We fully realize the necessity of constructing an office building at least, as soon as the present building program is completed and if we secure a site now we will be independent of any advance in price which it is sure to occur, if it should later that we can sell the present Court House then we have to do the proposition or needs will be to add enough stories to the office building to furnish the necessary rooms. We have had two sites offered. One one hundred and eighty by one hundred and forty feet on Wayne street just north of the Presbyterian Church for 122,000.00 dollars with an income of practically 5,000 dollars a year and one one hundred and twenty by one hundred and forty feet just south of and adjoining the old Jail site, for eighty four thousand ($84,000.00) dollars but with an income for 6,000.00 dollars per year.
Your committee believe the latter site to be the most desirable, and we would recommend that the offer of the Bloomfield Hills Land Development Company be accepted and that the Board of County Auditors be instructed to carry out the terms.
We further recommend that the sum of twenty thousand ($20,000.00) dollars be placed in the budget for this purpose.

To the Honorable Board of Supervisors:
The Board of County Road Commissioners for Oakland County has prepared and hereby reports for your consideration a map upon which is shown the highways which in the opinion of the Board of County Road Commissioners should be laid out and established as a part of the plan of highway development for this County.
In preparing this plan the Board has endeavored to give consideration to all the various parts of the county and the probability of future development. The Board believes that the day for haphazard development has passed and that the highways of Oakland County should be planned and developed according to some systematic plan, and believing so, have prepared this general plan of highway development.
Also the Board of County Road Commissioners have adopted the following resolutions August 18th, 1925.
Resolved by Commissioner Lytle, seconded by Allen, that
Whereas, the development of much of Oakland County has been so rapid, and lands in all parts of the County are being divided and platted, and the plans for future steps for a suburban population thereby laid, rendering it not only desirable, but imperative that some general plan as to the width of highways throughout the entire County should be adopted;
Therefore be it resolved:
1. That the map showing said plan of Oakland County Highways as prepared under our supervision and direction be approved and the same be hereby adopted as the "Plan of Highway Development for Oakland County" subject to such additions and modifications as to us shall seem best from time to time.
2. That on said map showing said plant there be written or printed such memorandum as shall serve to indicate the various widths of the highways hereby included in said plat, (also including state highways with width indicated as determined by the state highway commissioner), and that this board endorse its approval in writing on said map.
3. That hereafter, unless the Board of County Road Commissioners shall upon application otherwise order—
(a) All lands platted which border upon any public highway which is not included in said "Plan of Highway Development for Oakland County" shall be so platted that said public highway shall be one hundred six (106) feet in width;
(b) That no highway, road or street of a width of less than sixty (60) feet shall be laid out on any plat;
(c) No new highway shall be laid out independent or apart from any plat of a width of less than one hundred six (106) feet;
(d) No highway or part of highway which wholly or in part borders upon any lake shall be discontinued either wholly or in part.
Ayes: Lytle—Yes.
Allen—Yes.
The Board of County Road Commissioners respectfully submit this plan for the consideration of your honorable body in connection with the matter deals with the various portions of the County.
Under the amended platting law the plan of highway development adopted shall cover the various townships in the approving of plats and the board of county road commissioners respectfully submit the plan and solicit your collective and individual support in carrying out same.
All of which is respectfully submitted.
C. ROSS THOMPSON,
THOS. LYTLE,
LUTHER D. ALLEN,
Board of County Road Commissioners.
