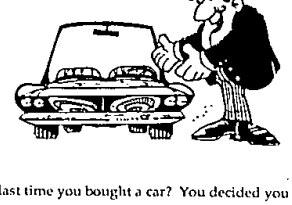
A name you can depend on in Real Estate!

Your customers check the Yellow Pages before they buy, right?

WRONG.



When was the last time you bought a car? You decided you needed one or wanted one and you went right to the Yellow Pages, didn't you?

Of course you didn't, and neither does anyone else.

They find the kind of car they want in what's been printed within the last week. The newspaper. And more often than not *this is the newspaper they use.*

We've just had a survey done by Belden Associates of Dallas, Texas and their research tells us that 61% of our readers have purchased or leased a motor vehicle in the past two years.

We have a super-rich market for selling everything from cars to carpets. If you are in business be sure your advertising budget isn't being wasted on the Yellow Pages. If you don't buy things by looking in the *directory*, you can be sure other people don't, either.
