GROW

Health Care Analysis

Seeking exceptional candidates for positions in Policy and Program Development (PPD) and Planning and Research (PGR).

PPD completes projects impacting health care providers, performs problem identification and develops new benefit program designs, as well as developing quality and utilization management and reimbursement policies.

PGR analyzes the health care market, legislative and health care policy, corporate planning and performance, and develops corporate strategies and business cases for new opportunities.

Positions in both areas require preparation of in-depth papers and presentations to management and interface with corporate staff at all levels. Excellent analytical, writing and communication skills are critical. PC skills a must.

These positions require a graduate degree in Health Care, Public Health, Business Administration or a related discipline. At least 2 years' experience in research, data analysis, or health care systems and the ability to function in a team environment are also necessary. Excellent salary, benefits and growth opportunities are offered in this major firm. Please forward resume to:
