LOUIS UNTERMEYER WILL MODERNIZE "MOTHER GOOSE"

Louis Untermeyer, poet, critic, editor, and one of today's most popular platform personalities, will be the Detroit Town Hall speaker in the Fisher Theatre Wednesday morning, March 2, at 11 o'clock.

In his lecture, "Mother Goose Up-to-Date," a broadly humorous reappraisal of our childhood favorites, Louis Untermeyer shows how the nursery rhymes might be made "modern" for this generation if the jingles were re-written by the living poets. Reading his burlesques and parodies gives him the opportunity to comment on his fellow poets.

Untermeyer's collections and original volumes are in every public library. His anthologies have been adopted as school textbooks. His critical biography of Heinrich Heine, in two volumes, was published recently.

Found guilty of intoxication, Al Hagberg of Sioux Falls, Ia., has been sentenced to spend a month of Sundays in jail.

CASE CAUTIONS MOTORISTS TO JUNK OLD PLATES

Leon D. Case Secretary of State, cautions all motorists to destroy their 1937 motor vehicle license plates as soon as they install 1938 plates on their cars.

Instances in which criminals have picked up cast off plates for temporary use on their own cars in the commission of a crime are not unknown to police, it is pointed out.

The dangers of this possibility grow during the last few days preceding a license plate deadline, when hundreds of thousands of plates are carelessly thrown away, making them available to anyone who might want to use them perhaps for only a few hours.

Until March 1, the only way a motorist can be assured that no one else might use his old plates is to see to it personally that the plates are mutilated, Case said.

Alice Moore, "pancake tester" for an Akron, O., grain products company, estimates that she has cooked 500,000 pancakes in the last year.

AMERICAN LEGION IS OPPOSED TO COMMUNISM

The following article was submitted to the Enterprise by the publicity committee of the Groves-Walker Post No. 346 of the American Legion, of Farmington.

"The Legion is militantly opposed to Communism and other subversive activities. The Legion does not attempt to take the law into its own hands. To do so would be equivalent to descending to the level of communism. The right of any country, including Russia, to maintain any form of government it wishes cannot be denied. Your interest and that of the American Legion centers in blocking any attempt of any foreign government or scheming group to force their principles and form of government on these, our United States.

"The Legion believes in the progress of government and that the Constitution of the United States, our basic law, provides the peaceful, orderly and American Way for such progress. To you, under the Constitution, is reserved the right to change our basic law as you decide is necessary. The American people constitute the government and can, by thoughtful use of the ballot, incorporate into law and practice necessary changes.

"The communists would have us believe that rioting, bloodshed, confiscation and government by fear are things to be desired. The Red forces must be met and overcome. Such practices as they deal in have no place in our country. They can best be dealt with by constituted authority, which can call on you and all other loyal citizens to carry out its mandates.

"The American Legion believes that education and particularly information about conditions in these communistic and ism countries will successfully combat the subversive forces. With the facts before him, any one would be convinced that the American democracy is the best form of government for the people, that has been conceived.

More about this education next week."
