## The Michigan Mirror

By GENE ALLEMAN

(Continued from Page 2A)

indicated to the state Agricultural department that money will be appropriated in the national office on a matching fund basis to help fight the moth if it continues to be a problem in Michigan.

• • •

Nature makes the gypsy moth a difficult opponent. Its eggs are laid on "almost anything" - - from a stone to an automobile. From 4,000 to 5,000 eggs make up a mass; as many as 400 masses are found in one group.

Eggs hatch into larvae which float through the air. When it lands, "it chews the heck out of everything green - - even pine needles." Once developed into adulthood, the female quickly becomes so heavy with eggs she cannot fly.

• • •

Reports of the moth in other parts of the state were not long in arriving. Several came from areas along US-16, Brighton and Detroit.

These, and all others that are made, are to be quickly investigated. If conditions warrant, spraying and other weapons will be put to use.

Men have been fighting the gypsy moth for nearly half a century in New England.

## Adopt Procedure

tax limitation be increased by six mills for a period of 20 years to finance the program. Officials stated that the issue would probably be paid up in about 17 years.

Registration books in Farmington Township, Redford Township and the City of Livonia are now open for the taking of new registrations. Persons should register in the city or township in which they reside. Only persons not already registered in the District need to register.

At the regular Board meeting June 10, the following persons were named to the election board for the special vote. Mrs. Margaret Lattimer, Mrs. Francesca Billings and Mrs. Jean Moore. Alternates selected were Mrs. Armella Richmond, Mrs. Catherine Dickinson and Mrs. Jaen Oakley.

*Announcement of the Opening of* **ALTA LOMA Park**

This beautiful, slightly rolling and partially wooded tract of land contains 65 acres. It begins two blocks west of Farmington Road at Cass Avenue and extends west to the city limits and lies between Alta Loma Drive and the Grand River Cut-Off.

There will be more than 100 sites (minimum width 100 ft.) for one-floor, custom-built Ranch Homes.

The plat for our first unit has been recorded; sewer and water installations have been completed; streets are now under construction and sidewalks 5 feet wide will follow as soon as feasable.

**Construction of Homes Will Begin This Month**

Sites are available only to individuals and custom builders. No builder will be allowed to purchase more than 15% of the sites.

All plans must conform to very rigid restrictions. They must also be approved by our Architectural Control Committee.

We are sure Alta Loma Park will be considered the most desirable residential area within the limits of Farmington.

If you are planning a Ranch or Contemporary House with not less than 1200 square feet of floor area — if the splendid neighborhood protection to be enjoyed by residents of Alta Loma Park appeals to you — please contact us at once.
