Announcing the Turbocharged
BOSS PINTO
The Quick Clean Machine
The 15 second Pinto is here and you don't have to "get inside" your engine.

Here it is . . . the greatest thing that has happened to driving since the V-8! Add our turbocharger to your stock Pinto and you have a super-fun mini-sports-car! The kit is easily installed in 6 to 8 hours with hand tools, retains all the government-required emission control hardware, yet gives your Pinto twice the normal horsepower to the road. Imagine being able to keep up with the V-8's having more than four times your displacement — while retaining your good gas mileage. Now you can have safer highway driving, with reduced passing exposure time and safe merging with expressway speed traffic. Our kit makes the Pinto the first really fun car in years — and for a price you can afford.
