It's been replaced.

For the 19th consecutive year, we've replaced the bug. With another bug.

To those of you who were expecting something fancier, sorry. (The '68 looks just like the '67 crossed out above.)

To those of you who now own a Volkswagen, congratulations. (Once again your model has not gone out of style.)

To those of you who've been thinking about buying a new one, nice thinking.

The front seats are more comfortable. (They have built-in headrests.)

The windshield wipers are much more efficient. (They're larger.)

Even the shifting is easier. (We put a decal on the window to show you how.)

All in all, we feel that the 36 nice little changes on this year's Volkswagen make it the best ever.

Of course, every year we build the "perfect" Volkswagen.

And then we do a masterful job of proving ourselves wrong.
