APPLICATIONS ENGINEER

LOGICON is a leader in automation through the application of computers and electronics. We are listed on the American Stock Exchange and last year our sales topped $30 million. Our Virginia-based Process Systems Division specializes in high technology industrial mini/micro-computers, applications for Process management control and monitoring.

We are seeking an Applications Engineer for the Detroit area who will provide technical support to our customers in addition to direct marketing and sales responsibilities.

The individual selected will be well-versed in real-time industrial data acquisition and process control systems utilizing mini/micro computers. In addition, this individual will be a proven performer in the industrial/automotive market place, possess excellent communication skills and be adept at interfacing with customers.

For additional information call Bill Sheahan Monday, May 9 at (313) 885-8300 or forward resume including salary history to:
