B·I·C™ Here's our story -

About B·I·C Multiple Play Manual Turntables

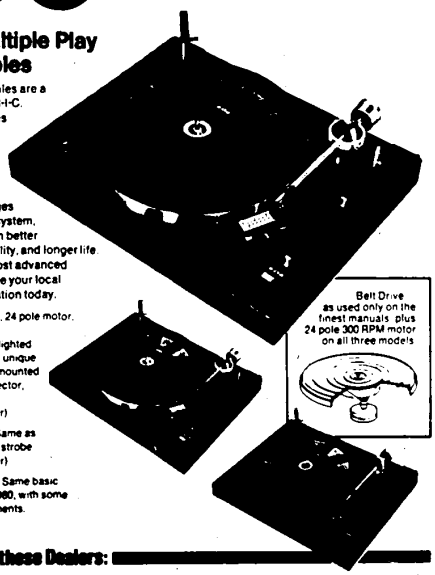
Multiple play manual turntables are a new concept pioneered by B-I-C. They are belt-drive turntables which provide six different combinations of manual or automatic operations! They are the first turntables which make it possible for a maze of mechanical linkages to be engineered out of the system, simplifying it and resulting in better performance, greater reliability, and longer life.

In short, they are the most advanced instruments of their kind. See your local B-I-C dealer for a demonstration today.

B-I-C Model 980 (top) 300 RPM, 24 pole motor, solid state electronic drive for ±3% pitch variations, built-in lighted strobe, adjustable rate cueing, unique programming system, gimbal mounted tonearm, 4 pin cartridge connector, 15° adjustable stylus angle. $199.95 (less base & dust cover)

B-I-C Model 960 (bottom left) Same as 980 without speed control and strobe $159.95 (less base & dust cover)

B-I-C Model 940 (bottom right) Same basic performance features as 980, 960, with some differences in trim and refinements. $109.95 (less base & dust cover)



Belt Drive as used only on the finest manuals plus 24 pole 300 RPM motor on all three models
