How to use this pattern

BOAT - A:
Fold dash lines upward. Make the back corners by folding in at dash lines indicated. Press sides and backs together; Fold in X to Y and pull sides together to make the bow; attach. Reinforce by folding in and taping side dash lines.

MAST - B:
Fold and refold along the dotted line until mast is about the size of a pencil. Staple in center then again, about one quarter inch from the top. Cut a two inch slit up the center from the bottom. Open the slit to form two legs to secure the base. Angle the mast in center of boat so the flat side faces either back corner (kitty corner). Tape slits to base, one in front of mast, one behind, so mast stands firmly at an angle.

SAIL - C:
Position on the flat, bow side of the mast so top of sail is about one inch above the mast. Attach.

SAIL REINFORCEMENT BOOM — D:
Fold tightly along dashed line, then successively until boom is tight. Staple both ends. Place boom horizontally behind sail and mast along bottom line of sail. Curve boom so ends overlap about a half inch on each side. Wrap ends around sail and attach. This will cause the sail to bow.

Bring the family . . . it's a fun-for-all show
