BMW 530i

everything else will seem like basic transportation.

What is it that makes a car so exceptional that the editors of Road & Track magazine flatly proclaim it "the best sports sedan in the world"?

Technically, the BMW 530i is a unique combination of a turbine-smooth, 3 liter engine, supremely efficient electronic fuel injection and a four-wheel independent suspension system that's a model for modern design.

Yet, to really comprehend exactly what makes the BMW the choice of serious drivers in all parts of the world, you must drive one. And we'd be happy to arrange a thorough test drive for you.

The ultimate driving machine.
