LIFE
EDUCATION
ADVISORS
The Individual Technology Institute is an innovative, professional group working with academic, industrial and labor partners who have invested substantially in the future of our country. We are research and development of computer assisted instructional and related social and economic issues.
We are beginning a new, one year project working with adults in Detroit, Pontiac and Southfield to open up education plans. The candidates we select will develop a life-related education planning program, generate and publicize the program and assist the employees in reaching their plans. The project will begin on June 17, 1985.
Applicants for the positions must have experience in the operation of programs for adult learners and in the teaching/facilitating of adult groups and workshops. Familiarity with a broad range of social and economic problems and community organizations is required. The ability to creatively design, organize and implement a plan to develop the program is necessary.
Previous experience with the concerns and needs of hourly, industrial, union represented manufacturing employees is necessary. Public speaking ability, strong interpersonal skills, and good oral/written communication skills are required. A background in the sociopsychic of personal and educational needs is preferred. Previous work with organized labor is highly desirable.
We have several openings in the Western Wayne County/Washtenaw County area. We offer a competitive salary and benefits package and the opportunity to work on a dynamic project. To apply for a position, please send your resume and salary history in confidence by April 29, 1985 to:
