MRS. ALICE GRESHAM DODD, mother of the first American soldier killed in France, who gives entire credit for recovery of her health to the well-known medicine Tanlac.

The following remarkable endorsement of Tanlac was given recently by Mrs. Alice Gresham Dodd, at the Gresham Memorial Home, Gavin Park, Evansville, Ind., which home was presented to her by the patriotic people of Indiana, as evidence of their appreciation of the services rendered to his country by her son, Corporal James B. Gresham, the first American soldier killed in France. Expressions of sympathy were received by Mrs. Dodd from all parts of the United States, and the newspapers of the country carried the story of the first "war mother."

The shock of her son's death resulted in the serious breakdown of Mrs. Dodd's health, but everyone will learn with interest and pleasure that she is now in splendid health again. When seen at her home recently she made the following statement, giving the entire credit for her recovery to the well-known medicine, Tanlac.

"After my dear boy's death I had a general breakdown in health," said Mrs. Dodd. "At first it was just indigestion. My food used to upset me and I had to diet myself very carefully, which wasn't much hardship, as I lost all desire to eat. Then I had an attack of rheumatism, with severe pains in my shoulders, back and arms. Sometimes I used to suffer a great deal, and my joints would get all swollen up and stiff. I was able to do very little about the house, and at times couldn't even cook a meal. I got very nervous and restless, and at night would lay awake for hours, and lost many a night's sleep as a consequence.

"A friend of mine had received a great deal of help from Tanlac, and it was she who advised me to try it. I am so glad I did for it proved the best medicine I have ever taken. It soon gave me a good appetite and seemed to settle my stomach so that I was no longer troubled with indigestion. I don't know what it is to have rheumatic pains now, the swelling and stiffness has all gone out of my joints and I am able to do the work of the house with the greatest ease. My nerves are now steady and strong. I sleep like a log at night, and I feel better in health than ever before in my life. I shall always be grateful for what Tanlac has done for me, and shall recommend it every chance I get."

Tanlac is sold by leading druggists everywhere.—Adv.

Even the soviet must have a boss.

ASPIRIN

Name "Bayer" on Genuine

BAYER

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes, of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid. -Adv.

A man you like never bores you.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions.

Circulars free. All Druggists.

A good name lost is hard to regain

ROAD BUILDING

CAUSE OF DAMAGE TO ROADS

Pernicious Practice of Overloading Small Trucks With Narrow Tires Is Responsible.

With the rapid increase in the number of motortrucks operated over our highways, it has been found that many of what are called "improved" roads have failed to withstand the additional traffic imposed by the new form of local freight transport. This has given rise to new problems of road construction and maintenance, and in some states has led to the enactment of laws prohibiting the use of the large capacity truck, on the assumption that it is the heavy truck that does most of the damage to the road. The first result of this legislation has been to encourage the pernicious practice of overloading, under which trucks designed to carry safely a limited weight are forced to carry a large additional load. The tires of the various sizes of truck are made of a sufficient width to prevent their breaking or cutting the road surface when loaded to their proper full capacity, but when an overload is added the tire width is necessarily too narrow, and the danger of injury to the road becomes manifest. The tire width required for certain loads has been carefully worked out after many years' experience, and most states have laws fixing the weight that is borne by an inch of tire width. In all standard types of truck the width of tire corresponds to the load that can be safely carried, and truck manufacturers warn their customers against carrying a greater weight than that for which each size of truck is designed.

The enactment of a law prohibiting the use of large capacity trucks leaves the same tonnage of freight to be moved, and with the heavy truck barred resort must be had to the smaller sizes. This means in many cases less economical and efficient service, and prompts the manufacturer or merchant to try to make up for loss in load capacity by increasing the size of the load. With this additional load the gross weight on the tire exceeds the factor of safety, and thereby increases the danger of breaking the road surface. It is self-evident that a truck designed to carry two tons with corresponding width of tires,

Overloaded Truck Increases Danger of Cutting Surface of Improved Roads.

must do more damage to the road when it carries a ton or so more of load than its tires were intended for.

A striking example of the relation of overloading to impact is given in the preliminary report of the United States bureau of public roads, in which it is stated that a three-ton truck, with a load of five tons, running at a speed of 15 miles per hour over a two-inch rut, had an impact of slightly over 17 tons, while a 5½-ton truck with a load of 5½ tons, under the same conditions had an impact of only 12 tons. The fact that the overloaded truck had a heavier "unsprung" weight than its weight not sustained by springs, accounted to some extent for its greater impact, but there can be no question that the overloading was a material factor in causing the greatly increased wheel pressure on the road.

Against this danger truck owners are constantly being warned by truck manufacturers, who strongly advise that no truck should be made to carry a greater load than the weight defined by its classification. Some states have enacted laws imposing fines for truck overloading, but it will probably be found that enlightened self-interest will prove to be the best check on a practice that has been shown to be dangerous both to truck owners and drivers and the general public; and a source of injury to our roads that materially limits the benefits from the motortruck as a new agency for local freight transport.

Market Roads First.

"Transcontinental highways—fill a useful place in our national life, but the really important road is the one from the farmer's gate to his market town," said President J. R. Howard of the American Farm Bureau Federation recently in addressing the National Association of Vehicle and Implement Manufacturers.

Insist on Permanent Roads.

Insist upon permanent roads in your county. They are cheaper in the long run.

STUNG

She: You said if I married you, I should want for nothing.

He: With your dad's wealth I never dreamed either of us would.

A Wit.

A wit is one who says the thing
To fill the room with laughter
Which we ourselves think up to say
The morning following after.

All Mixed Up.

"I want to get this account straight. Has our leading lady had five husbands or six husbands?"

"I dunno. Ask her."

"But she isn't certain herself."

For Women Who Suffer

Foster City, Mich.—"At the age of fifteen I went through an operation for appendicitis and our doctor said that I would be relieved of other distressing symptoms also, but it was of no help. I would have to stay in bed at intervals and I suffered something terrible. Finally, I had a thorough examination by a good doctor and he advised an operation later on. If I continued to suffer, but I tried Dr. Pierce's Favorite Prescription and Golden Medical Discovery, and after taking six bottles I gradually got better and there has been no return of the former trouble."—MRS. BERT STEBBINS, JR.

No Picnic.

"Yes, we were shipwrecked."

"Had to undergo some hardships, I suppose?"

"Some. There was no summer hotel handy."

Find the Cause!

It isn't right to drag along feeling miserable—if sick. Find out what is making you feel so badly and try to correct it. Perhaps your kidneys are causing the throbbing backache or those sharp, stabbing pains. You may have morning lameness, too, headaches, dizzy spells and irregular kidney action. Use Doan's Kidney Pills. They have helped thousands of ailing folks. Ask your neighbor.

A Michigan Case

"Very Picture Of Health" Mrs. George Symmons, 205 W. Fleshelm St., Iron Mountain, Mich., says: "My back pained and dizzy, nervous spells came over me. Specks floated before my eyes and blurred my sight. My kidneys were too frequent in action. I always felt weak and run down. A friend advised me to try Doan's Kidney Pills. I bought some and they cured me."

FOSTER-MILBURN CO., BUFFALO, N. Y.

MARKET REPORT

FURNISHED BY U. S. BUREAU OF MARKETS, WASHINGTON, D. C.

Hay and Feed

Minneapolis reports Twin Cities markets flooded with low grade hay; musty and unsound stock selling at $8@8. Chicago hay receipts very light but demand is of a hand to mouth character. As buyers appear not to be alarmed about light receipts, receivers are unable to work prices higher. Good No. 1 timothy would sell at about $19. Minneapolis, $25. Chicago: Alfalfa weak and lower in Cincinnati market where 114 cars are reported in terminals.

Quoted: No. 1 timothy: $32.50 Atlanta, $26 Cincinnati; No. 2 timothy: $21 Atlanta, $17 Minneapolis, $23 Cincinnati; No. 1 alfalfa: $34.50 Atlanta, $21 Omaha, $22 Cincinnati; No. 2 alfalfa, $28 Atlanta, $14 Omaha, $22 Cincinnati; No. 1 prairie: $14 Minneapolis, $11 Omaha, $15 Kansas City; No. 2 prairie: $1.50 Minneapolis, $9 Omaha.

No change in feed market conditions. Demand remains quiet and prices generally lower than last week. Gluten feed reduced another $5, making decline $13 per ton within past two weeks. Hominy steadily selling off; bran down $2.50.

Quoted: Bran, $23, middlings $21, flour middlings $25, red-dog $22, Minneapolis; white hominy feed $30.50 northeastern markets; No. 1 alfalfa meal $22 Kansas City.

Fruits and Vegetables.

Potatoes declined about ten cents per 100 lbs. at northern shipping stations, reaching 75 to 90c sk'd. Chicago carlot market down 10c at $1@1.10. Round whites ten to fifteen cents lower f. o. b. New York shipping points closing $1@1.05. New York markets down 15c, reaching $1.50@1.65 bulk.

Baldwin apples from cold storage steady f. o. b. around $4 per bbl. Baldwins and Greenings steady in city markets at $4@5 for large lots. York imperials $3.75@4.50; Chicago $5@5.25. Northwestern extra fancy Winesaps steady around $2.15 per box f. o. b. shipping points; New York markets steady, large sizes $4 to $4.25, medium sizes $3 to $3.50.

Carlot shipments week ended Feb. 2: potatoes 2,910 cars; boxed apples 416; barrelled apples 1,061; cabbage 375; celery 415; lettuce 670, onions 406; sweet potatoes 353.

Live Stock and Meats

Compared with a week ago Chicago hog prices ranged 20c to 50c higher, beef steers average nearly $1 lower; butcher cattle down 25c to $1. Feeder steers lost 50c per 100 lbs.; veal calves $1 to $1.50.

February 3 Chicago prices: Hogs, bulk of sales $9.30@10; medium and good beef steers $6.90@8.60; butcher cows and heifers $4.25@8.25; feeder steers $6.85@8; light and medium weight veal calves $9.50@12.50; fat lambs $7@8.75, feeding lambs $7.25@8.50; yearlings $5.25@7.75; fat ewes $3.25@4.75.

Eastern wholesale fresh meat prices were invariably lower than a week ago February 4 prices good grade meats: beef $13.50@15.50; veal $20@22; lamb $17@21; mutton, $10@14; light pork loins $20@22; heavy loins $15@18.

Grain

Prices opened higher but subsequently declined as result of depressing economic and financial reports. The declines continued until the 2nd when over sold condition was revealed and this together with advance of 8c from low point in Buenos Aires wheat caused general buying and an advance in American prices. On the 3rd, however, the markets suffered a reliable and Chicago May wheat fell to $1.42 1-8, a new low price on crop.

For the week Chicago March wheat down 12 1-2c at $1.52 1-8; May corn 3 3-4c at 64 3-8; Minneapolis March wheat down 14 1-4c at $1.40 3-4; Kansas City March 12 3-4c at $1.46; Winnipeg May 14 7-8c at $1.65 3-8, Chicago May wheat $1.43 1-8.

Dairy Products.

Butter markets have failed to recover strength and feeling has been unsettled throughout the week. Feb. 3d prices declined sharply in eastern markets. Chicago market has not followed declines fully, but weakness in coast has affected trading there. Foreign butter still available but finding slow demand.

Prices 92 score domestic fresh: New York 46c; Philadelphia 47c; Boston 47c; Chicago, 45 1-2c.

DRESSED CALVES—Choice, 18@24c; medium, 15@17c; large coarse, 10@13c per lb.

CELERY—Michigan, 40@50c per doz; Michigan, square, $1.25@1.50; rebunched, 75c@$1.25 per bunch.

Butter and Eggs

EGGS—Fresh current receipts, 51@52c per doz.

BUTTER—Fresh creamery, 40@45c per lb. as to quality.

Congresswoman Defies Minister.

Muskegon—Miss Alice Robertson, congresswoman-elect, attended a dance given by the American Legion, the first she had attended since 1879, she said. Miss Robertson is the daughter of a pioneer missionary and herself known as a church worker, but she went to the dance "to show a local minister where my heart is," she told legion members. A local minister recently assailed the legion for passing a resolution condemning the Sunday "blue laws."

LOVE SEEN IN NEW LIGHT

Old Idea of Affection All Wrong, According to Pronouncements of Modern Scientists.

"Science revolutionizes our ideas," The speaker was W. L. George, the English feminist lecturer. He resumed:

"A millionaire contractor was complaining to a scientific friend of mine that a beautiful actress had accepted his proposal of marriage only he had just discovered that she did so for purely mercenary motives.

"But my scientific friend poohpoohed the millionaire contractor's lament.

"'What a queer devil you are!' he said. 'You want to be loved for your looks alone—that is, for the position in space of the atoms, ions, molecules and what-not which chance, working through some Darwinian selective theory, has grouped together in the entity that is yourself. Ridiculous! And you hate to be loved for your wealth, for a financial achievement, that is to say, which is an unimpeachable testimonial to your industry, intelligence, probity and virtue.'"

Appropriate Peril.

"We had a narrow escape when we turned suddenly on that narrow path along the cliff they call the Razor."

"Yes, it must have been a close shave."

Half a loaf is better than a dozen loaves of the kind some bakers make.

HIMALAYAS IN SECOND PLACE

Exploration in Tibet Have Revealed Existence of a More Massive Mountain Range.

Among the greatest results achieved by the Hedin explorations in Tibet was the discovery of a continuous mountain chain, 2,000 miles long, stretching east and west, and which, taken as a whole, is the most massive range on the crust of the earth. Its average height above sea level is greater than that of the Himalayas, and although its peaks are from 4,000 to 5,000 feet lower than Mount Everest, its passes average 3,000 feet higher than those of the Himalayas.

The eastern and western parts of this range were known before, but the central and highest part, in Bongba, was unexplored previous to Doctor Hedin's visit. He crossed ten passes in the range.

Would Take a Chance.

The school teacher was explaining the meaning of "B. C." and "A. D." and to see if his lesson had got home he asked the boys what they would do if they found an old Roman coin stamped with the year B. C. 63.

"Ignore it as a forgery," said one boy, whose experience as a stamp collector had sharpened his wits.

"Very good," said the master. "Obviously pre-Christ minters would know nothing of Christ."

"I'd pick it up, though," said a black-haired boy with a prominent nose; "it might fit a slot machine."
