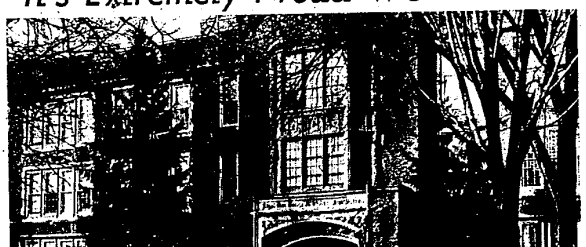
It's Extremely Proud We Are . . .



. . . scratch the green bark of a sapling, or wantonly twist it in the soil, and a scarred or crooked oak will tell of the act for centuries to come. So it is with teaching. Impression made upon the young mind will last forever. The child, like the sapling, will become largely what it is taught. As sculpture is to a block of marble, education is to a human soul. The proper education brings to light the statesman, the scientist, the peacemaker, the world might never have known. So, there you are . . . we at the B. F. Chamberlain Company think it's mighty important to select the right school district—and consequently the right teachers—for your child. For the past 2 years we have helped thousands of families find new homes in the suburban area. We are extremely proud of the schools and the teachers you'll find here. You'll discover that we are just as concerned with the school your child will attend as we are with the house in which he will live. After all, his future really depends on both.
