Polio Vaccine Now Available For Teenagers

Oakland County physicians are now available through commercial channels, according to Dr. Frederick N. Adams of Birmingham, chairman of the polio committee of the Oakland County Medical Society.

The vaccine is in addition to the free vaccine supplied by government funds to priority group of children from one to 19 years of age and expectant mothers.

Parents of all teen-agers are urged to contact their doctors and make arrangements for them to start the series of three injections against paralytic polio.

Dr. Adams said, "There is a high incident rate of polio among teen-agers according to national statistics. We want these young people to be vaccinated as quickly as possible.

"Much crippling due to paralytic polio will be prevent-ed if parents acting their doctors and making arrangements for their children to receive the protection the Salk vaccine gives, Dr. Adams concluded.

Fair To Offer Aviation Show

For the first time in its 107 year history the Michigan State Fair will present its Aviation Show August 31 through September 9. A large portion of the grounds has been set aside for both civilian and military aircraft.

To attract the interest of youth, essay contests will be held, with free rides and flying lessons as prizes.

The Michigan Flying Farmers, 450 members strong, will activities in the Aviation Exhibit at all times with various Michigan farmer pilots on duty explaining the function and activity of the Flying Farmers. One of the contests will be conducted by this group.

The Skylark Flying School of Detroit will display Champion aircraft and also offer free rides and flying lessons.

The Francis Aviation Company of Detroit will exhibit the "Bonanza," the type which won this year's Powder Puff Derby.

A helicopter will be a familiar sight around the State Fair as arrangements have been made for its daily landing on the grounds by the Wheat Air Company of Detroit.

The Civil Air Patrol, Michigan Department of Conservation will describe firefighting activities used in fire fighting and spotting.

One of the most interesting displays will be an experimental aircraft designed and built by Neal Loving in the basement of Direct Sister Recreation Center of Detroit.

Loving is 16 feet long and 20 feet wide.

The aircraft and equipment in the State Fair show will be guarded by members of Detroit's own 308th Military Police Battalion.

(Continued from Page 2B).

The movement is spreading from rural origin to include urban areas.

* * *

Highest boost in stretching the CROP dollar came in 1954 when the federal government authorized release of "surplus food" by private agencies to friendly people of the world.

Using this machinery, one dollar buys a single CROP will supply 100 pounds of basic food commodities. A single dollar buys 40 pounds of wheat and 10 pounds each of beans, corn products, butter, dried milk, cheese and rice.

* * *

Operating as the relief arm of Church World Service, a department of the National Council of Churches, CROP personnel distribute food through existing church channels.

* * *

"If people could only see the great good they can do in establishing friendly relationships with the starving countries abroad," Mrs. Neal Loving said, "the world would be a better place to live in."

He returned recently from a personal tour of Greece and other countries where CROP dollars are doing much to reaffirm the basic dignity of the individual.

"Approximately one-half of our $100,000,000 in food shipments," he said, "will be used for sending nor-surplus foods, seeds, heifers, artificial insemination equipment for dairy cattle. In this way we help the people to help themselves become self-sufficient again."

CHRISTIAN SCIENCE

Man's real status as a child of God — possessing unlimited freedom and happiness — will be emphasized at Christian Science services Sunday in a Lesson - Sermon entitled "Man."

Scriptural selections will be read from the King James Version of the Bible and Mrs. Eddy's "Science and Health with Key to the Scriptures."
