Liver Trouble Remedy Free

Any intelligent person can be his own doctor in the ordinary case of liver trouble, for the symptoms cannot be mistaken. If the white of the eye becomes yellowish, if the skin becomes sallow, if pimples and blotches appear, if the bowels do not move, if you have sick headache, if you are bilious, you may be sure that your liver is torpid or inactive.

The quickest and surest remedy yet found for the cure of liver trouble or any of its symptoms is Dr. Caldwell's Syrup Pepsin, the great herb laxative compound. This wonderful remedy is not only a laxative, but a tonic as well. It will start the flow of gastric juice, thereby soon enabling the liver to do its work naturally. A bottle of this great liver remedy can be bought of any druggist for 50 cents or $1, and in many cases a single bottle has cured a chronic case.

For example, John W. Lee, 619 S. Pennsylvania ave., Indianapolis, Ind., had a stubborn and ever long-standing case of liver trouble, with pimples, blotches, jaundice, etc., and it cured him. Mrs. B. Flinchum, Jackson, Ky., says the same of it. Thousands of families keep it in the house against that such an emergency, as you can never tell when some member of the family will need a good laxative.

In order to have you or any other sufferer from the liver make a test of Dr. Caldwell's Syrup Pepsin without personal expense, Dr. Caldwell will send you a free test bottle if you will send your name and address. The sample will show you how pleasant it is to take, how gently it works. It will start you on the cure of your trouble and convince you that you have found a cure. That is the object of the sample, and the doctor urges you to send for it today.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 500 Caldwell bldg., Monticello, Ill.

John Rogers, Jr., a former Northville boy, who now resides with relatives in Detroit, was shot by an unknown man last Saturday. He was walking on Grand River avenue between Fourteenth and Fifteenth streets when he heard the report of what he supposed was a blank cartridge and turning saw a man fleeing down a side street. He then felt a pain in his back and investigation revealed the fact that he had been shot. He was taken to St. Mary's hospital. It is thought to have been a case of mistaken identity.

According to the pure food commission and the board of health, oysters will be oysters from this on or somebody will get themselves into trouble. It has been customary to place chunks of ice in tubs of oysters, which melts and of course adds that much water. This will have to stop and no ice or water may be added to the tub of shucked oysters. If necessary to use ice, it must be placed around the tub instead of in it. Anyone who handles oysters with ice or water in them is liable to prosecution, and it is probable that dealers will be careful as the fines are not light for adulterating foods in any way. Oysters bought at different places in the state have been analyzed and found anywhere from 25 to 60 per cent water. The state food and drug commissioner has decided that oysters must be solid pack.

Archie Blue of Detroit was here on business Monday.

Mrs. Coughlin of Detroit called on relatives in this vicinity last week.

The Ladies Aid at Mrs. Fred Schroeders last Thursday was well attended.

Mr. and Mrs. Cornell called on Mr. and Mrs. Chas Hirschlieb Saturday evening.

The disinfecting work in this vicinity is about completed. A thorough overhauling is being done at all places where cattle were slaughtered. The general feeling is that the farmers were well paid for the loss of their cattle and damage to buildings, which is very true, but it must be taken into consideration that the income from those cattle has been shut off for possibly several months, that those cattle will have to be replaced at probably double the price that the farmers received and that next seasons crops will suffer for want of manure, which is valued very highly by the farmers.
