LIKE LEWIS AND CLARK -- WITH VCRs.

The Chevy Astro and Full-size Chevy Van Conversion Vans: American travel has come a long way from a canoe and two paddles. Meet two American explorers who can help you discover new places while the kids watch their favorite video. Choose the Chevy Astro* Conversion Van if you want a mid size van that can seat up to seven in living-room luxury or tow up to 5500 lbs.† besides. If you travel so often that toll takers know your name, you might prefer the Full-size Chevy Van Conversion Van. No matter which you choose, and whether your trip lasts a day or a year, both are incredibly comfortable, amazingly dependable and easy to maintain, thanks to a Vortec* engine that doesn't need its first scheduled tune-up for up to 100,000 miles.** Which means the next time you leave home you don't have to come back for a long, long time. See your local dealer today. CHEVY TRUCKS

*Optional equipment. †Chevy Astro and Chevy Van shown with VT1 option package. From independent supplier. See owner's manual for information on payloads and warranties. Towing capacity depends on vehicle equipped. **Maintenance needs vary with use and driving conditions. Ask your dealer's manager for details. ©1997 GM Corp. Buckle up. America!

One of the best things about owning a Saturn won't occur to you for about five years.

When you add up the total cost of buying, maintaining and insuring a Saturn over a five-year period, you'll find those numbers surprisingly low. And IntelliChoice® did, too. Which is why they chose to name the Saturn SL series their "Best Car Value Under $20,000."

SATURN.

[$12,895] *That's the M.S.R.P. of this 1997 Saturn SL2, including retailer prep and transportation. Of course, total cost will vary seeing how options and state-required equipment are extra, as are things like tax and license. Each retailer sets its own price, which may differ from the price above. ©1997 Saturn Corporation.*
