REFRIGERATION EXPERTS ALLAY PUBLIC ALARM

Following the recent news of a Chicago investigation of the alleged dangers of mechanical refrigeration, a committee composed of engineers and chemists, representing the leading manufacturers, met a few days ago in Chicago and canvassed the situation thoroughly.

The committee issued the following statement at the conclusion of its meeting:

"Recent publicity has been the cause of some alarm in connection with the use of mechanical refrigeration. Overemphasis has been given to the so-called dangers due to the accidental escape of refrigerant fluids used in mechanical refrigeration.

"The unanimous engineering and chemical opinion is that there is no cause for alarm or uneasiness in this regard any more than there is in the cases of many other chemicals and gases to which we are all exposed constantly in normal life, which far exceed those which have been attributed to mechanical refrigeration.

"With the proper installation of mechanical refrigeration employing any of these generally accepted refrigerants, the public has no cause for alarm."

GET GAS—BUT DON'T PAY

Two young men stopped at the gas station of R. R. Francis on the Pontiac road in Sylvan Lake Saturday night, ordered gas and oil and then pulled a revolver on Mr. Francis and ordered him inside the station while they drove off without paying. They are believed to be two young men of Pontiac, who were arrested by Royal Oak police and are charged with robbing a restaurant.
