Wisdom From Ruskin

To yield reverence to another, to hold ourselves and our lives at his disposal, is not slavery; often it is the noblest state in which a man can live in this world.—Ruskin.

Plants Not Harmful

The old theory that the keeping of plants in bedrooms is harmful to sleeping human beings has no foundation in fact, since plants give off oxygen and take in carbon dioxide—the exact opposite process to that which takes place during the respiration of animals. Therefore, if plants are not so numerous as to cause a heaviness in the air with their odor, they would be beneficial rather than otherwise in a bedroom.

"I never dreamed that cooking could be such PLEASURE!"

"My ELECTROCHEF is simply a revelation!"

"I never knew that cooking could be such fun until I bought my new Electrochef. This modern range is so clean, so convenient, so *different* from ordinary stoves! Cooking with electric heat makes one think of pure SUNLIGHT . . . There is no smoke or soot to blacken utensils, to darken kitchen walls and curtains. A glowing wire in the center of a polished reflector furnishes only pure *heat*.

Another nice thing about my Electrochef is the fact that it's easy to KEEP clean. The smooth surfaces of glistening porcelain are as easy to clean as a china dish. Simply wiping with a damp cloth restores the original luster. All corners are rounded, inside and out. There are no cracks or crevices anywhere to collect dirt. Even the round-cornered oven interior, finished in chromeplate, can be easily and quickly polished to its original brightness. My Electrochef will look new and sparkling for years!"
