Keep the pressure up!

Uncle Sam is fighting the biggest "fire" in world history. Every ounce of pressure we can put behind the war effort is needed now.

If everybody kept right on sprinkling lawns while a big fire was raging, the firemen wouldn't have enough pressure. Just so with the telephone system. Long Distance telephone lines, like water mains, can carry only so much at a time. Much of the capacity of the Long Distance lines is needed now for the messages that speed war production.

Here's how you can help:
Do not make a Long Distance call unless it is really important.
Keep all calls as brief as you can.
