Sponge Spot

Sponge a grease spot with carbon tetrachloride, gasoline, or benzene. To sponge: Lay the stain face down on a cloth pad and use light brushing motions from outside the spot to the center. The trick is to spread or "feather out" the liquid around the stain, so that no ring will form.

DETROIT EDISON LINES

. . . Timely items of interest and value . . . helpful suggestions about cooking, lighting and appliance use.

WHY SAVE ELECTRICITY? . . . The "brown-out" ordered by the Government stresses the need for saving electricity to save coal. If anybody doubts the urgency of this program, here are some convincing figures: Last year—to supply customers' requirements of electricity—The Detroit Edison Company *alone* burned one ton out of every 200 tons of coal mined *in the entire United States.* Of 620 million tons mined in 1944, three million were burned in Detroit Edison plants. The facts speak for themselves. To conserve coal, conserve electricity wherever you can, *as much as you can.*

"—CANNED IN TOMATO JUICE" . . . This fall you may enjoy something new and different from your Victory Garden: snap beans, peas or asparagus put up by canning methods and *preserved in tomato juice.* Vegetables preserved in this fashion are pleasing in taste and have a greater vitamin C content. The tomato juice may be used without dilution, or water may be added up to an amount equal to the juice.

SUGAR SAVER . . . Our Home Service Department recommends this tasty dessert using little sugar and shortening:

Chocolate Chip Pudding

¼ cup shortening
¼ cup sugar
1 egg, beaten
¼ cup dark corn syrup
1½ cups sifted all-purpose enriched flour
¼ tsp. salt
2½ tsps. baking powder
¼ cup milk
⅔ cup chopped semi-sweet chocolate, or chocolate bits

Cream shortening and sugar. Add egg and beat well. Add corn syrup and beat thoroughly. Sift flour with salt and baking powder, and add to creamed mixture alternately with the milk. Add chocolate. Pour into a well greased 8x8x2-inch square pan. Bake in a preheated 350° F. oven for 35 minutes. Serve with toffee sauce. Serves eight.

Don't waste electricity! Conserve it to save coal

KITCHEN CRAFT . . . Instead of scraping or paring carrots, scrub them with a stiff brush. Besides being easier, this method saves the vitamins and minerals.

THE OLD JUDGE SAYS...

"When this war is all over, Judge, there will be some mighty interesting books written about it. Expect we'll learn a lot of things we didn't know before."

"Yes, Fred, when the record is finally written we'll realize what a gigantic operation this war really was and how important to final victory many factors really were."

"Take, for example, just one industry. Few people realize the importance of the great work done by the beverage distillers during the war. A high government official called it 'an almost unparalleled example of the overnight conversion of an entire industry from peace to war.' He also said not so many months ago, while speaking about synthetic rubber, 'It is fair to regard the rubber manufactured to date as being almost solely the product of the beverage distilling industry.' That's the type of thing I have in mind . . . the way great American industries at home cooperated to help our brave fighting men abroad."

"I see what you mean, Judge...a complete history of American teamwork."
