WEST POINT PARK

Mr. and Mrs. John Ackermann of Dearborn have written relatives of their safe arrival in Arizona, where they plan to spend the winter because of Mr. Ackerman's ill health. Mrs. Ackerman is the former Mary Stromoski, who lived a number of years in the West Point Park area and has many friends and relatives here.

Mr. and Mrs. Stanley Chavey of Mayfield Avenue returned last week from a vacation trip to Virginia where they visited their son, Stanley, Jr., of the U. S. Navy at Norfolk. They report they found the young man "just fine". "Red" was permitted to be with them in the hotel during the entire length of their stay.

Township Board

(Continued from Page One)

by the Township Board subject to the approval of the County Road Commission. A 120 acre plat on the west side of Farmington Road near 11 Mile Road was approved. The developers stated that 76 parcels will be developed in the first unit. A second plat of 15 parcels, located on Drake Road north of Nine Mile Road, was approved. The third approved plat of 108 acres is located on the southeast corner of Drake and 12 Mile Roads.

The Board approved a motion establishing a five-man Electrical Appeal Board in the Township. The Board will hear appeals on electrical work and serve as a licensing agency.

NEW LOCAL GROUPS ENDORSE ST. MARY HOSPITAL DRIVE

More endorsements from civic, fraternal and religious groups have been given to the St. Mary Hospital Building Fund Campaign, according to Sterling Eaton, campaign chairman, who has been receiving mail from the various organizations during the last few weeks.

Among those endorsing the campaign to raise funds for the construction of the proposed 120 bed general hospital are:

Our Lady of Sorrows Church, Farmington Universalist Church; Trinity Episcopal Church, The Blue Star Mothers, Chapter 49, The Kiwanis Club, The Maccabees Hive, the Farmington District Girl Scouts, and The Farmington Auxiliary to Post No. 4033, VFW.

Mrs. Fred E. Harrison and Mrs. Louis A. Nolan, Community Appeal Co-Chairmen, stated that recruiting of volunteer workers has begun, and that the response has been most encouraging. These volunteers will make telephone calls to the people of their communities in order to acquaint them with the plans of the campaign.

Various campaign committees are nearly ready to function. The Commerce and Industry committee will begin its active solicitation shortly, according to Tracy Conroy, of Farmington, committee chairman.

Likewise, Dr. Theodore W. Ling of Farmington, chairman of the Professional Committee, stated that his group will swing into action in the near future.

Other committees are meeting regularly, and as soon as they are ready, they too will begin their solicitation.

FARMINGTON - NOVI GIRL SCOUTS

The executive committee welcomed Novi troops into the Southern Oakland Association on September 17.

The president, Mrs. Farmer, announced at the regular meeting held at her home that from now on the organization would be known as Farmington - Novi Troops.

It is important for Girl Scouts to contact their leaders at once to place reservations for troop camp, which will be held at Island Lake Recreation Area on September 25 to 27. Call Mrs. Lange at Farmington 2943-W for further information.

The Sandaus of Hubbard Avenue are spending this Saturday in northern Michigan.

ROLLING DOWN THE RIVER

By Bob Kettler

We wish we could vouch for the veracity of this customer of ours, but we'll have to pass his story on without waiting to check up on the evidence, which we understand is no longer in evidence anyway. Seems he had a neighbor of his arrested on the strong suspicion that said neighbor stole nine bottles of beer from our customer's refrigerator. The Judge threw the complaint out of court on the grounds you can't make a case out of only nine bottles.

• • •

Well maybe he was right, you can't make a case when you're short of the necessary quota, but we must state here and now there's nothing short about making a case for the 1953 Studebaker. When you take its beauty, its economy, its power, its comfort and its general all around roadability you've just a bit more than it takes to make the finest car on the highway today. Of course the proof is in the driving and you're invited to drop around for a demonstration at once.

• • •

We have a note for nature lovers this week. Up around Tomahawk, Wisconsin, a Milwaukee Road section foreman was having trouble with some beavers who were damming a small stream, causing a softening of the railway road-bed. So one night he set up a long pole with a red lantern tied at the top on the theory that the red light would keep the beavers from working. But they really have resourceful beavers in Wisconsin. The animals not only cut down the pole with their sharp teeth, they used the lantern to plug a hole in the dam.

Now these mechanics of ours, while not exactly beavers, are very ingenious when it comes to making a car run a bit better than you really expect. With a touch of fall in the air it's about time you had the car lubricated and gave it a bit of new oil. A motor tune-up will give it added jest for those beautiful autumn drives ahead, too. See you soon.

That is that but have you discovered how far a nickel will go these days. As a matter of fact you can carry one for weeks before you discover anything it will buy!
