

Drunk Drivers The Party's Over In Oakland County.

Drunk driving is a crime. Last year in Oakland County drinking drivers were involved in over 6000 traffic accidents. 4,500 people were injured. More than half the deaths, almost 100, were alcohol related. Drunk driving; it isn't funny, it's criminal and in Oakland County it's coming to a halt.

Special Alcohol Enforcement Teams are operating in areas of Oakland County where the greatest number of alcohol related accidents occur.

We know all about drunk drivers. Where they drive. When they drive. They can be spotted a mile away.

Our special teams are made up of Oakland County Sheriff's Deputies, State and local police officers. They're well trained. They know what to look for. They know what to do. And if people drink and drive in Oakland County it's only a matter of time before they are grabbed. Then the real hangover begins.

Our judges and prosecutors just can't wait to meet the drunk driver. They know the problem. They know the consequences. And they're going to make the laws stick. And make them hurt. So if people drink now and then, that's o.k. with us. As long as it isn't mixed with driving. Because from now on the party's over in Oakland County.
