Both meetings are open to all interested persons.

Purpose of the meetings is to take a consensus on the first section of the "Lugs, Cogs and Quanges" state study.

Consensus is an agreement among a substantial number of members as a whole reached after sustained study and group discussion. This is not a simple majority nor necessarily unanimous.

When the body of opinion expressed

in consensus has been put into words by the appropriate board, it is called a position.

The consensus questions at hand will deal with county government; the township form of government and whether that form of government is effective; whether the township should automatically shift to a city charter once the population reaches a given level; and what standards and services should be provided by township government.

The West Bloomfield League members now have a local position supporting the city form of government for their township.

That support item is to be reopened to study alternatives to a city form of government for West Bloomfield.

Baby sitting services information will be given by calling 553-3672. League membership inquiries will be taken by calling 681-6264.

She added: "It's always nice to have a contact person. I get my own job by networking."

CAROLYN LAICH, former president of the Schoolcraft College student

"Both men and women need an information source," she maintained. "A network tells you about job possibilities, gives you career ladder information and let you in on procedural steps taken by women to be promoted. It gives you a feel for what is going on."
