Plan vacation around weather

When planning your vacation this year, don't forget to arrange for good weather. It's not impossible. If you're planning a vacation on the shores of Lake Michigan, there's a guidebook available to help you determine where and when the weather will be best for your particular choice of activity. "The Visitor's Climatic Guide to West Michigan's Shore" allows you to plan trips for the weather you prefer. It tells you what kind of weather to expect during all seasons of the year in the north, south and central regions of the lake shore. The guidebook was produced cooperatively by the Michigan State University and University of Michigan Sea Grant Advisory Service and the National Oceanographic Data Center. The brochure provides information on seasonal sports, festivals and other activities in the Lake Michigan area. Harbor locations and transportation routes are also mapped out, and sources of tourist information are listed to help make vacation planning easier. You can order a free copy of "The Visitor's Climatic Guide to West Michigan's Shore" by writing to the MSU Bulletin Office, P.O. Box 231, East Lansing, 48824. Ask for publication E-1362.
