**SNAPPER** Mowers, Tractors, Blowers

**YOU CAN USE A SNAPPER AS A MULCHING MOWER OR AS A SUPERIOR "BAGGING" MOWER.**

That's an important option to have when grass gets too tall or lush for mowing. When you add a mulching Mulchtrizer to your SNAPPER you convert it to a mulching mower. It chops up cuttings so fine they become lawn food and you don't have to rake or bag. But, unlike one function mulching mowers, you can remove the Mulchtrizer and use your SNAPPER as a superior bagging mower. In quality features on every SNAPPER mower includes full length solid steel axles, large rear wheels and easy cutting height adjustment.

SNAPPER mowers are worth more because they do more and their price is competitive with other quality mowers.
