

Do You Teach the Youngsters to Face the Facts?

School bells ringing for the new term call tomorrow's men and women—the leaders and workers of a few years hence.

Billions could not equal the wealth of this nation in its boys and girls. Added billions could not pay what school days will be worth to them.

Train them to meet each test as best they can, to cheer the comrade who passes them while each does the best he can.

Teach them, too, that thrift and a knowledge of how to save are big stepping-stones to success.

**An Egg
Isn't a
Miracle!**

When one of your hens lays an
egg it isn't a matter of chance. She
can't help but lay that egg, when
her feeds contain the right materials
to make it. If those elements are
not present in her feed there is a
lack of an outside assistance which
combined with her body functions
produces the egg. That necessary
help is furnished by *Wonder Mash*.

It's a scientific food composed of
the necessary food elements a hen
needs. It makes her lay more eggs.

Wonder Mash does the same thing
to a hen that fertilizer does to the
soil. Haphazard feeding of any-
thing you have handy is likely to
make her fat without supplying the
egg-making elements. The result—
she doesn't lay.

Order a supply of *Wonder Mash*
today—you'll get more eggs.
