Turn the key! and your Buick is Double-Locked
 No lock could be safer! One turn of the key locks both ignition and steering wheel. But merely turning off the ignition does not lock the wheel. You may shut off the engine and coast, if you like, and still have your car under perfect control.
 And no lock could be more convenient! It is illuminated and located within easy reach, where the steering column meets the dash.
 The Buick double-lock is an exclusive Buick feature—one of many important refinements which characterize Buick for 1928.
