

# Satisfaction

A satisfied depositor is more valuable to a bank than a new account.

That is one reason why we bend every effort to render each and everyone of our many depositors the utmost in helpful service.

We wish each depositor to be a satisfied customer.

Any suggestions as to how we can better our service and increase our usefulness to this community will be gratefully received.

### GRADUATION RECITAL OF MISS BAKER TO BE GIVEN NEXT FRIDAY

The piano recital and graduation of Miss Gladys Baker, a pupil of Miss Irene T. Kremer, will take place on Friday evening, June 17, at Community Hall at 8:00 o'clock.

On that evening Miss Baker will receive from Miss Kremer her diploma. She will be assisted on the program with soprano solos by Mrs. Rita Kastner of Pontiac and with readings by Miss Theone A. Dolg of Pontiac.

### MARK DAINES JOINS BROTHER AS PARTNER

An interesting event in Farmington business circles occurred this week when Mark Daines, joined his brother as a partner in the Central Market. Mark Daines purchased a half interest in the business.

Mark Daines has been in charge of a chain store meat market in this city. A. J. Todd, who has assisted Harold Daines for about a year, has accepted a position at White Lake, Mich.

### APPEAL TO WARD OFF SMALLPOX MADE BY DOCTOR

(Continued from Page One)  
of age, who have not been vaccinated within the past five years. "The vaccination of all persons is therefore advised by the local City Health Officer as one which will preserve our present healthy conditions in this community, and with our pure water and natural and acquired drainage continue to make "Farmington, the Home Town."

"We wish further to go back a few years to the time when our neighboring city, Detroit, suffered from an epidemic of smallpox during which time all the deaths were among the people who had never been vaccinated. Those who were vaccinated either never contracted the disease or had it in very mild form, these assertions can be verified by Board of Health of Detroit.

Two Cases in Pontiac  
"Last week Pontiac reported two cases of smallpox and neither of these cases had been vaccinated. Vaccination is the one measure which we all can take against the disease and protect ourselves, the community and the business interests of this city.

"The health officer will be pleased to furnish free vaccine to all physicians of the City and will gladly co-operate with them in every way so as this general vaccination plan can be fully carried out as advised by the Department, and to you all of the City we ask your hearty support in protecting your children, yourselves, home and city.

(Signed)  
"J. A. Miller, Health Officer."  
Miss Safford's article is as follows:

Smallpox Contagious  
Wholesale vaccination is recognized as the only known and positive method to prevent smallpox. The disease is very contagious. Persons who are exposed are almost sure to develop it if they have not been vaccinated. On the other hand, those who have had this treatment, fairly recently, mingle freely with patients in hospitals and elsewhere, and do not get the disease.

In countries where vaccination is not used, smallpox is still one of the main causes of death—China, India, and Russia. On the other hand, Japan stamped out the disease by compulsory vaccination throughout her islands. In England, babies must be vaccinated before they are six months old.

Vaccination Safe  
Some people are afraid of vaccination, thinking it dangerous. This is a mistake. Performed by a physician who is clean in his methods, it is entirely safe. Formerly, there was possible danger of some infection in the vaccine. For this reason its production and sale has been, since 1902 under strict control of the Federal government.

With all precautions taken to insure safety, those people who neglect this protection are dangerous citizens. Their presence in the community, in any numbers, makes possible a severe outbreak of the disease. Smallpox would be banished from the world if everyone understood the importance of vaccination.  
(Signed.)
