6 Great Reasons to Consider The Michigan Group

1 Being associated with The Michigan Group has had a profound impact on my success. It is a pleasure to walk into our office and sense the total positive atmosphere from the associates, manager Chuck Mills, and broker Fred Matzky. We have an excellent support staff plus a modern state-of-the-art office. Also, our commission structure is by far the best in business.

2 My decision to join the team at The Michigan Group was precipitated by a desire to work in an upbeat, high energy, professional environment. With sincerely concerned ownership and management that are both knowledgeable and capable, The Michigan Group is the best brokerage for agents looking to maximize their financial return. Of course, the best commission split in Southeast Michigan doesn't hurt either.

3 After eight years in the business, I know how important it is to work to do my very best. I must surround myself with the best. There is no other company that offers what The Michigan Group does. I work with positive professionals, have a terrific support staff and location is superb. The program that The Michigan Group offers agents is unbeatable. When you're happy at your job, everything goes better.

4 I started out selling real estate with another company that was made up of mostly part-time agents and was very small in comparison to The Michigan Group. It was a nice surprise to work with highly motivated, full time, professional agents and staff. Before I came here, I never knew how easy it was to receive 100% commissions.
