FOR CITY CHAMPIONSHIP

Local High School Defeated by First Team in Hard-Fought Battle

On the local floor Saturday evening last the high school representative team went down to their first defeat of the season at the hands of the First team. Although outweighed the High boys put up a stiff game and the First team had its hands full every minute.

The first half opened tamely the high school breaking the ice by shooting a foul after three minutes of play. The First team were slow in getting started, but once in motion began a fusillade on the High's basket which resulted in four field baskets in as many minutes. From then on the First's steadily forged ahead and the half ended with the First's enjoying a comfortable lead. Score—First, 18; High, 3.

The second half started as the first with the high school playing at top speed in a desperate effort to stop the rush of the First's. In this they succeeded and the score of the second half shows First 13; High 7.

The High's found the First team's guards a difficult proposition and rarely solved the defense.

The stars of the high school were Wolfe and Gullen and the whole team is to be congratulated on their gameness. Official score and summary as given by Score-keeper Gullen as follows:

VOTED HIS

HONEST CONVICTION

Dr. J. F. Rumer Not Asked to Vote for Ascher's Pardon by Ex-Gov. Warner

In an interview with Dr. J. F. Rumer, who is a member of the advisory board of pardons and paroles, by the appointment of ex-Gov. Warner, yesterday afternoon, in regard to his action on the board in the case of Ed Ascher, and the demand of Gov. Osborn for his resignation from the board, the doctor had the following to say:

"Gov. Warner never asked me to vote in favor of his granting a pardon to Ed Ascher.

"He requested me to look over the files in the case and go over the testimony, which I did very carefully, and then went to Detroit with the governor and saw the six jurymen. They told me of the confinement for 30 hours in a jail room whose floor was covered with the contents of an overflowing water closet.

"Before I looked over the testimony and talked with the six jurymen, I would not have thought of advising clemency in this case. But after I heard their story and saw a record of the different ballots which stood 6 to 0, and one 7 for acquittal to 5 for conviction, I changed my mind.

"Then an ex-prosecuting attorney of Wayne county also told me in his office in Detroit that it was an infernal outrage to convict and sentence a man for life on such testimony. An ex state senator of the city of Detroit said about the same thing, only in language that is not used in polite society. A member of congress at present also said to me: 'If I was governor I would let that man out of prison in five minutes.'

"This case had been tried once before, and the jury stood 6 for acquittal and 6 for conviction, which shows that the testimony was none too strong.

"I voted in this matter on my own judgment as to what I considered right, and I think I would do the same thing if it was to do over again.

"The public is being treated to a lot of rot and foolish statements by the state papers, a large part of which is intended as a direct slap on ex-Gov. Warner, who, I am proud to say, is a personal friend of mine, and whom I regard as having been used most unjustly in this, as well as in a great many other matters."

Dr. Rumer also stated that the trouble was largely of a mathematical nature, in as much as Gov. Osborn has made six promises for every position in the state.—Davison Index of Jan. 6.

Electric Lights

We understand that the Edison Electric company of Detroit has asked Farmington to grant them a franchise to construct a line from Redford to Farmington. They have the line built as far as Redford and that town is being brilliantly lighted. It is to be hoped that we may soon have the privilege of using electric lights if we so desire. We are told that the cost of wiring a medium sized house runs for \$25.00 \$50.00, according to the grade of fixtures.
