ORDER THE STREETS OILED

Also Extend Sewer on South Side of Grand River Avenue

APPOINT BOARD OF REVIEW

Attempt to Substitute Cement Walk for Cinder Path Was Defeated

We cannot give our readers all of the council proceedings that took place Monday night for there was no stenographer present to take down all that was said. However, boiled down, we find that an extension of the sewer was ordered on the south side of Grand River avenue to the John Philips house.

They also agreed to have the streets oiled again this summer and this is to include practically all of the streets of the village. The matter was left in the hands of Alderman Nichols and Myers, who were appointed by the president and given power to go ahead and secure the necessary apparatus and to buy a tank of oil and see that the work is done.

They could not escape the usual grist of bills and they were duly allowed.

A cement culvert was ordered on the east and west road on the north line.

Messrs. Nichols and Myers were named as a board of review.

Considerable discussion was indulged in relative to building a cement walk in place of a cinder path recently ordered, but it failed to carry and the cinder path will go in unless there is a change of feeling at a subsequent meeting.

KEEP CITY FOLKS OFF

Plan to Reserve the Suburban Cars for Use of Suburbanites

If plans now under consideration by the D. U. R. are carried out, the city passenger annoyance on suburban street cars may be done away with. For years back suburban passengers coming out of Detroit have been subjected to all the discomfort and annoyance afforded by crowded cars, caused by Detroit residents riding on suburban cars in preference to the local cars. Various plans have been suggested whereby Detroit people riding entirely within the city limits might be compelled to ride on the city cars and leave room for the suburbanites on the big cars. Up to the present time no plan has been suggested that has proved successful.

The present proposition is for every board of trade, commercial association or other organization in cities and villages outside of Detroit which are reached by the suburban cars to unite in a petition to the Detroit common council asking that an ordinance be passed which will bar city people riding entirely within the city, from suburban cars.

D. U. R. officials have interested themselves in the plan and will aid to the best of their ability in working it out.

Detroit Business Men Coming

The Wholesalers & Manufacturers' association of Detroit is planning a number of trolley trips to the nearby towns in the interest of trade and the towns out Grand River avenue are on their list. Let them come on, we will be glad to get better acquainted with the gentlemen.

Big Primary Fund Distribution

From the receipts of taxes which go into the primary school fund Auditor General Fuller estimated that the apportionment of primary school money in May will be at the rate of \$7 per capita the highest rate of apportionment since 1906, when the state collected a big amount of interest on back taxes. This distribution will cover every school district, as the new law excluding some districts from participation will not go into effect this year. There are 771,493 school children in the state to receive the benefit of this disbursement an increase of 11,000 over last year.

The New Free Tuition Law

The free tuition law has been amended by the legislature and now provides that in order to have his tuition paid in a high school by his home district, a child must possess an eighth grade diploma, or shall have evidence of having completed eight grades of work in a graded district.

The department will rule, therefore, that all children applying for tuition this year must either possess an eighth grade diploma granted by the county board of examiners or submit proof that he has completed eight grades of work in a graded school district. Of course a child who had his tuition paid last year under the wording of the old law, but who did not possess an eighth grade diploma, is entitled to have his tuition paid this year without it.

Supervisors Must Meet in June

Under the law which created the new state board of equalization, the board of supervisors will have to hold a session on the fourth day of June this year to equalize the assessment rolls and prepare a report to the state board.

LOST THE SECOND GAME

Home Team Failed to Solve the Delivery of Mr. Bumpus Jones of Holly

SCORE WAS 13 TO THREE

Gildemeister Not in Form and Jo'mson Took His Place in the Seventh

The second game in the Western League series played between Holly and Farmington last Saturday on the Farmington grounds was a bitter experience for Farmington and a sore disappointment. Our Farmington boys usually win out in every sport they undertake and so a defeat comes harder than ever when it does come to them.

Jones, Holly's star pitcher, did good work for Holly, holding Farmington down to few hits.

Gildemeister, pitching for Farmington, was not up to his usual good form. In all fairness though, it ought to be stated that he did not want to pitch Saturday's game. He realized better than the others did that he was not in good shape for pitching that day. With no discredit to himself there is no blame resting on Gildemeister for Saturday's result.

In the first two innings no runs were scored. Then Holly opened up, scoring 1 in the third inning, 2 in the fourth, 3 in the fifth, and 7 in the sixth. Johnson was then put in the box for Farmington and struck out the side. Up to this time Farmington scored no runs. Jones weakened in the seventh and Farmington scored 3 runs. Then Holly was retired by Johnson without any scoring in the first of the eighth.

This ended the game as some of the Holly boys declared that they had to go on the 5 o'clock car. This left Farmington with two turns at bat and Holly only one. Johnson was pitching in excellent form and the whole Farmington team were doing better. There is little doubt but that had they been able to complete the game the final score would not have told so against Farmington. As it is our boys have a chance still, but a very slim one, of winning out in the League series.

Millford comes here next Saturday to play Farmington. The diamond will have been rearranged by that time, since the old buildings have been removed from the grounds.

The Boys Celebrate Arbor Day

On Arbor day the High school boys, under Prof. Goodrich's supervision, raked up the school yard, and evened it up so that the new diamond will make a much livelier game possible. The new piece of property, which the school board purchased some time ago makes an excellent addition to the grounds so that the new players' benches, grand stand, screen and back stop really present a very respectable appearance. The school board is to be congratulated for its generous activity in the behalf of the school sports.

It is at last being recognized everywhere in America and across the seas in the older European countries, that clean, wholesome sport is an essential part of every boy's training and schools have a share in the thought and attention of every educational system.

Bank Examiner Campbell was here the latter part of last week and made one of his periodical examinations of the Farmington Exchange Bank.
