Cars leave Farmington Junction for Orchard Lake and Pontiac at 6 a. m. and hourly to midnight.

Cars leave Farmington for Northville at 6.04 a. m. and hourly thereafter until 12.04 a. m.

First cars on Sunday leave Junction at 1.00 a. m.

Cars connect at Northville with those for Plymouth and Wayne over the D. J. & C.

SPORTS OF THE PAST WEEK

Redford Second Team Takes a Close Game from Farmington High School Team

REDFORD LOST A GAME

On Saturday Franklin Plays at Farmington and the Columbia A. C. at Redford

The Gordon-Pagel ball team of Detroit took a game from the Redford bunch last Saturday. It was a fine game up to the seventh, no scores being made by either side, but after that luck was with the city fellows and they won out. It was a good game never-the-less.

Saturday the Columbia A. C. team from Detroit are expected out for a game and Redford does not expect to let this game get away.

The Franklins will play Farmington's best Saturday and as they are said to be a strong aggregation a good game may be expected.

F. H. S. base ball team journeyed to Redford last Monday to be beaten by Redford to the tune of 4 to 5.

Up to the sixth inning it was as nice a game as one could wish there having been but one run scored, score being 1 to 0 in Farmington's favor. But in the last of the sixth Farmington went up and a splendid crop of errors sprang up. Redford wide awake and ready grabbed 5 runs before they were retired. Farmington rallied in the first of the ninth and scored three runs, having two men on bases when the last man struck out. The needed swat was not forthcoming.

The pitchers were Redford, Clarence Hutchins, Farmington, Wilmer Johnson. Both boys pitched splendid ball, both retiring about the same number of men. Both boys have pitched consistent ball all the season. Hutchins is one of the best pitchers Redford has now, and if he is careful of his arm, will do good work in the near future.

Johnson is also destined for the big parks if he improves as fast as he has this last year. In the next two or three years.

The nicest part of Monday's game was the really friendly spirit shown all the way through by the opposing teams. There was always a smile and a good word for everybody.

Roy Rurgess officiated and was impartial and fair in his work.

BIG CIRCUS AT PONTIAC

The great Adam Forepaugh and Sells Brothers' circus will give two performances in Pontiac on Thursday, July 6.

In New York City this show is considered the best of all American amusement institutions. For nearly fifty years it has held first place in the esteem of the public—in fact of the world, for there is not a country on earth that is civilized where at some time or another it has not pitched its many acres of tents.

The sensation with the show this year is the automobile double somersault in mid-air, accomplished by a young French woman not yet out of her teens. For utter recklessness and apparent disregard of death this act stands pre-eminent. The heavy car shoots with lightning speed down a slender incline, leaps high in air and while the audience is gasping it turns two complete revolutions in space, then dropping with terrific force to a steel platform. This is the most thrilling of all the world's thrillers. Circuses in the past have exploited a tame affair billed as a double somersaulting automobile act, but when the truth is known but one and one-half revolutions were accomplished. This is the only act of genuine character that has been seen in this country. It is a French importation.

Other thrills are added by the Ty-Bell "Human Butterflies." They are three beautiful French girls who, clinging by the teeth to slender wires, are drawn to the dome of the tent, where by means of hidden mechanism they are made to dive, dart and piourette like birds while a battery of electric spot lights and calciums bathe them in fantastic colors. The act is the most sensational and at the same time the most beautiful aerial spectacle ever devised.

The parade which the show is giving this year is three miles long and absolutely new in ideas from start to finish. Over 1,000 people, 550 horses and three herds of elephants are seen in it. The entire equipment of the show is new and the menagerie is the most complete collection of rare animals in America.

Rev. Davey at Farmington

The baccalaureate sermon was preached in the M. E. church last Sunday evening by Rev. George Davey of Redford to the Farmington high school graduating class. A splendid audience, which filled the house, turned out to hear Mr. Davey. His talk was on "Ideals" showing the place of ideals in character building. Mr. Davey's address was a splendid effort, practical, forceful and full of quaint humor that kept the audience interested all the time.

The Methodist chorus choir furnished extra good music for the occasion.

EIGHTH GRADE CLOSING EXERCISES

Splendid Program Arranged and Carried out by the Graduating Class

The eighth grade of Farmington school held their commencement exercises last Friday evening in the town hall.

The stage was beautifully decorated with the class colors, green and white, the whole area being draped in white bunting, while trailing green vines were draped upon the cloth. High above it all showed the class motto, "One Step Higher." The program was splendidly arranged and equally well rendered. Pierson's orchestra furnished excellent music in their usual good style, while the choruses by the grammar room were the best Farmington has heard for a good while.

Ernestine Pierce and Helen Warner's piano duet was well rendered and heartily applauded.

Loceal Osamus' reading was humorous and held the interest of everyone. The Duhany sisters sang one of their catchy songs in their own inimitable style and the audience promptly encored them. Then followed a little sketch by the grammar room entitled "A Modern Hero." The boys and girls took their different parts very well indeed.

Mr. Power, at the close of the program, presented the diplomas to the graduates from the eighth grade: Percy Power, Helen Whipple, Ernestine Pierce, Ethel Bade, Cecil Cox, Loceal Osamus, Leola Thayer, Willard Travis, Lynn Everett and Anton Schweizer.

Much credit is due Miss McVean for her excellent work this year, passing everyone of her 8th grade scholars who tried.

A LAND CHANCE

On the 23d of this month the government will open to homestead entry a choice tract of land in the famous Big Horn Basin of Wyoming under what is known as the Shoshone irrigation project. Two units of the project have already been settled and water is now ready for delivery to the lands of the third unit. This section of the project, which includes some of the most desirable lands in the entire district, lies near the town of Ralston, and none of the farms are more than a mile from a railroad.

Several hundred families have made their homes on this project and those who are successful in securing a farm in this new area will have all the advantages found in other progressive and well-settled regions, including schools, churches, growing towns with stores, banks, etc., good markets and railway facilities.

On this project the Reclamation service has built the highest dam in the world. It completely blocks the course of the Shoshone river, and the reservoir thus created provides an ample water supply for all of the lands. Full information about this project may be obtained by writing to the U. S. Reclamation Service 802 Federal Bldg., Chicago, Ill.

Reward to the Finder

John S. Bergy of Boyne City lost a gentleman's small hand bag from his automobile while driving through this section on his way home from Detroit. The bag contained, among other things, a gold watch, and Mr. Bergy authorizes this paper to pay a suitable reward for its return to this office.
